The NASA STI Program Office...in Profile

Since its founding, NASA has been dedicated to the advancement of aeronautics and space science. The NASA Scientific and Technical Information (STI) Program Office plays a key part in helping NASA maintain this important role.

The NASA STI Program Office is operated by Langley Research Center, the lead center for NASA's scientific and technical information. The NASA STI Program Office provides access to the NASA STI Database, the largest collection of aeronautical and space science STI in the world. The Program Office is also NASA's institutional mechanism for disseminating the results of its research and development activities. These results are published by NASA in the NASA STI Report Series, which includes the following report types:

- **TECHNICAL PUBLICATION.** Reports of completed research or a major significant phase of research that present the results of NASA programs and include extensive data or theoretical analysis. Includes compilations of significant scientific and technical data and information deemed to be of continuing reference value. NASA's counterpart of peer-reviewed formal professional papers but has less stringent limitations on manuscript length and extent of graphic presentations.
- **TECHNICAL MEMORANDUM.** Scientific and technical findings that are preliminary or of specialized interest, e.g., quick release reports, working papers, and bibliographies that contain minimal annotation. Does not contain extensive analysis.
- **CONTRACTOR REPORT.** Scientific and technical findings by NASA-sponsored contractors and grantees.

- **CONFERENCE PUBLICATION.** Collected papers from scientific and technical conferences, symposia, seminars, or other meetings sponsored or cosponsored by NASA.
- **SPECIAL PUBLICATION.** Scientific, technical, or historical information from NASA programs, projects, and mission, often concerned with subjects having substantial public interest.
- **TECHNICAL TRANSLATION.** English-language translations of foreign scientific and technical material pertinent to NASA's mission.

Specialized services that complement the STI Program Office's diverse offerings include creating custom thesauri, building customized databases, organizing and publishing research results...even providing videos.

For more information about the NASA STI Program Office, see the following:

- Access the NASA STI Program Home Page at <http://www.sti.nasa.gov>
- E-mail your question via the Internet to help@sti.nasa.gov
- Fax your question to the NASA Access Help Desk at 301-621-0134
- Telephone the NASA Access Help Desk at 301-621-0390

FOREWORD

In accordance with the NASA Space Act of 1958, the George C. Marshall Space Flight Center (MSFC) has provided for the widest practicable and appropriate dissemination of information concerning its activities and the results thereof.

Since July 1, 1960, when MSFC was organized, the reporting of scientific and engineering information has been considered a prime responsibility of the Center. Our credo has been that “research and development work is valuable, but only if its results can be communicated and made understandable to others.”

TM—2003–212926

October 2003

Spray Bar Zero-Gravity Vent System for On-Orbit Liquid Hydrogen Storage. L.J. Hastings,* R.H. Flachbart, J.J. Martin, A. Hedayat, M. Fazah, T. Lak,** H. Nguyen,** and J.W. Bailey***. Vehicle and Systems Development Department, Space Transportation Directorate, *Alpha Technology, Inc., **The Boeing Company, and ***Sverdrup Technology, Inc.

During zero-gravity orbital cryogenic propulsion operations, a thermodynamic vent system (TVS) concept is expected to maintain tank pressure control without propellant resettling. In this case, a longitudinal spray bar mixer system, coupled with a Joule-Thompson (J-T) valve and heat exchanger, was evaluated in a series of TVS tests using the 18-m³ multipurpose hydrogen test bed. Tests performed at fill levels of 90, 50, and 25 percent, coupled with heat tank leaks of about 20 and 50 W, successfully demonstrated tank pressure control within a 7-kPa band. Based on limited testing, the presence of helium constrained the energy exchange between the gaseous and liquid hydrogen (LH₂) during the mixing cycles. A transient analytical model, formulated to characterize TVS performance, was used to correlate the test data. During self-pressurization cycles following tank lockup, the model predicted faster pressure rise rates than were measured; however, once the system entered the cyclic self-pressurization/mixing/venting operational mode, the modeled and measured data were quite similar. During a special test at the 25-percent fill level, the J-T valve was allowed to remain open and successfully reduced the bulk LH₂ saturation pressure from 133 to 70 kPa in 188 min.

November 2003

Overview of Nonnuclear Testing of the Safe, Affordable 30-kW Fission Engine, Including End-to-End Demonstrator Testing. M.K. Van Dyke, J.J. Martin, and M.G. Houts. Propulsion Research Center, Space Transportation Directorate.

Successful development of space fission systems will require an extensive program of affordable and realistic testing. In addition to tests related to design/development of the fission system, realistic testing of the actual flight unit must also be performed. At the power levels under consideration (3–300 kW electric power), almost all technical issues are thermal or stress related and will not be strongly affected by the radiation environment. These issues can be resolved more thoroughly, less expensively, and in a more timely fashion with nonnuclear testing, provided it is prototypic of the system in question. This approach was used for the safe, affordable fission engine test article development program and accomplished via cooperative efforts with Department of Energy labs, industry, universities, and other NASA Centers. This Technical Memorandum covers the analysis, testing, and data reduction of a 30-kW simulated reactor as well as an end-to-end

demonstrator, including a power conversion system and an electric propulsion engine, the first of its kind in the United States.

TM—2003–212932

December 2003

Biological and Physical Space Research Laboratory Science Review 2002. P.A. Curreri, M.B. Robinson, and K.L. Murphy, Editors. Biological and Physical Space Research Laboratory, Science Directorate.

Documentation of the internal science research at the Biological and Physical Space Research Laboratory as presented in a review to Dr. Ann Whitaker, MSFC Science Director, in July 2002. These presentations have been revised and updated as appropriate for this report. The report documents flight and ground experiments in microgravity materials science and biotechnology science and space radiation. All of the work described includes significant scientific contributions by internal scientists (usually as principal or co-investigator on the research grant). Much of the research is in collaboration with external scientists. All the funding was provided as the result of competitive proposals evaluated by internal or external peer review processes. The external flight and ground research that our laboratory supports for the NASA program will be reviewed in a separate report.

TM—2003–212933

December 2003

FY 2002 Scientific and Technical Reports, Articles, Papers, and Presentations. B.A. Fowler, Compiler. Office of Chief Information Officer, Center Operations Directorate.

This Technical Memorandum (TM) presents formal NASA technical reports, papers published in technical journals, and presentations by MSFC personnel in FY 2002. It also includes papers of MSFC contractors.

After being announced in STAR, all NASA series reports may be obtained from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161.

The information in this TM may be of value to the scientific and engineering community in determining what information has been published and what is available.

TM—2003–212934

December 2003

Thermal and Chemical Characterization of Composite Materials (MSFC Center Director's Discretionary Fund Final Report, Project No. ED36–18). D.C. Stanley and T.L. Huff. Materials, Processes, and Manufacturing Department, Engineering Directorate.

The purpose of this research effort was to (1) provide a concise and well-defined property profile of current and developing composite materials using thermal and chemical characterization techniques and (2) optimize analytical testing requirements of materials. This effort applied a diverse array of methodologies to ascertain composite material properties.

Often, a single method or technique will provide useful, but nonetheless incomplete, information on material composition and/or behavior. To more completely understand and predict material properties, a broad-based analytical approach is required. By developing a database of information comprised of both thermal and chemical properties, material behavior under varying conditions may be better understood. This is even more important in the aerospace community, where new composite materials and those in the development stage have little reference data. For example, Fourier transform infrared (FTIR) spectroscopy spectral databases available for identification of vapor phase spectra, such as those generated during experiments, generally refer to well-defined chemical compounds. Because this method renders a unique thermal decomposition spectral pattern, even larger, more diverse databases, such as those found in solid and liquid phase FTIR spectroscopy libraries, cannot be used. By combining this and other available methodologies, a database specifically for new materials and materials being developed at Marshall Space Flight Center can be generated. In addition, characterizing materials using this approach will be extremely useful in the verification of materials and identification of anomalies in NASA-wide investigations.

TM—2004–213170

May 2004

Design Development Analyses in Support of a Heat Pipe-Brayton Cycle Heat Exchanger. B.E. Steeve and R.J. Kapernick*. Structures, Mechanics, and Thermal Department, Engineering Directorate, and Los Alamos National Laboratory.

A heat pipe-cooled reactor coupled to a Brayton cycle is currently under consideration for nuclear electric propulsion or as a planetary surface power source. In this system, power is transferred from the heat pipes to the Brayton gas via a heat exchanger attached to the heat pipes. This Technical Memorandum (TM) discusses the fluid, thermal, and structural analyses that were performed in support of the design of the heat exchanger to be tested in the Safe, Affordable Fission Engine experimental program at Marshall Space Flight Center. A companion paper, "Mechanical Design and Fabrication of a SAFE-100 Heat Exchanger for use in NASA's Advanced Propulsion Thermal-Hydraulic Simulator," presents the fabrication issues and prototyping studies that, together with these analyses, led to the development of this heat exchanger. An important consideration throughout the design development of the heat exchanger was its capability to be used for higher power and temperature applications. This TM also discusses this aspect of the design and presents designs for specific applications under consideration.

TM—2004–213172

May 2004

Evaluation of Training Samples Manually Welded With the Universal Handtool in a Space Simulation Chamber.

C.K. Russell, T.W. Malone, and S.N. Cato. Materials, Processes, and Manufacturing Department, Engineering Directorate.

The international space welding experiment was designed to evaluate the universal handtool (UHT) functions as a welding, brazing, coating, and cutting tool for in-space operations. The UHT is an electron beam welding system developed by the Paton Welding Institute (PWI), Kiev, Ukraine, and operated at 8 kV with up to 1 kW of power. In preparation for conducting the space welding experiment, cosmonauts were trained to properly operate the UHT and correctly process samples.

This Technical Memorandum presents the results of the destructive and nondestructive evaluation of the training samples made in Russia in 1998. It was concluded that acceptable welds can be made with the UHT despite the constraints imposed by a space suit. The lap joint fillet weld configuration was more suitable than the butt joint configuration for operators with limited welding experience. The tube braze joint configuration designed by the PWI was easily brazed in a repeatable manner.

TM—2004–213174

May 2004

STARSAT: A Project To Evaluate Ground Tracking of Small Objects in Space (MSFC Center Director's Discretionary Fund Final Report, Project No. 00-11). J.W. Campbell, M.R. Carruth, and T.M. Freestone. Materials, Processes, and Manufacturing Department, Engineering Directorate.

A laser space calibration experiment is considered using the 12-J, 15-Hz high-performance CO₂ ladar surveillance sensor (HI-CLASS) system on the 3.67-m aperture advanced electro-optics system (AEOS). The objectives are to provide accurate range and signature measurements of orbiting calibration spheres, demonstrate high-resolution tracking capability of small objects, and precision drag determination for low-Earth orbit (LEO). Ancillary benefits include calibrating radar and optical sites, completing satellite conjunction analyses, supporting orbital perturbation analyses, and comparing radar and optical signatures. A global positioning system (GPS), laser beacon instrumented microsatellite about 25 cm in diameter will be deployed from a Space Shuttle Hitchhiker canister or other suitable launch means. Orbiting in LEO, the microsatellite will pass over AEOS on the average of two times per 24-hr period. An onboard orbit propagator will activate the GPS unit and a visible laser beacon at the appropriate times. The HI-CLASS AEOS will detect the microsatellite as it rises above the horizon, using Space Command-generated acquisition vectors. GPS data will be transmitted to the ground providing independent on-orbit, submeter accuracy location information for the microsatellite.

NASA TECHNICAL MEMORANDA

TM—2004–213175

May 2004

Analytical Modeling and Test Correlation of Variable Density Multilayer Insulation for Cryogenic Storage. L.J. Hastings,* A Hedayat, and T.M. Brown. Vehicle and Systems Development Department, Space Transportation Directorate and *Alpha Technology, Inc.

A unique foam/multilayer insulation (MLI) combination concept for orbital cryogenic storage was experimentally evaluated using a large-scale hydrogen tank. The foam substrate insulates for ground-hold periods and enables a gaseous nitrogen purge as opposed to helium. The MLI, designed for an on-orbit storage period for 45 days, includes several unique features including a variable layer density and larger but fewer perforations for venting during ascent to orbit. Test results with liquid hydrogen indicated that the MLI weight or tank heat leak is reduced by about half in comparison with standard MLI. The focus of this effort is on analytical modeling of the variable density MLI (VD-MLI) on-orbit performance. The foam/VD-MLI model is considered to have five segments. The first segment represents the optional foam layer. The second, third, and fourth segments represent three different MLI layer densities. The last segment is an environmental boundary or shroud that surrounds the last MLI layer. Two approaches are considered: a variable density MLI modeled layer by layer and a semiempirical model or “modified Lockheed equation.” Results from the two models were very comparable and were within 5–8 percent of the measured data at the 300 K boundary condition.

TM—2004–213282

June 2004

Solid Rocket Booster Hydraulic Pump Port Cap Joint Load Testing. W.R. Gamwell and N.C. Murphy. Materials, Processes, and Manufacturing Department, Engineering Directorate.

The solid rocket booster uses hydraulic pumps fabricated from cast C355 aluminum alloy, with 17–4 PH stainless steel pump port caps. Corrosion-resistant steel, MS51830 CA204L self-locking screw thread inserts are installed into C355 pump housings, with A286 stainless steel fasteners installed into the insert to secure the pump port cap to the housing. In the past, pump port cap fasteners were installed to a torque of 33 Nm (300 in-lb). However, the structural analyses used a significantly higher nut factor than indicated during tests conducted by Boeing Space Systems. When the torque values were reassessed using Boeing’s nut factor, the fastener preload had a factor of safety of <1, with potential for overloading the joint. This paper describes how behavior was determined for a preloaded joint with a steel bolt threaded into steel inserts in aluminum parts. Finite element models were compared with test results. For all initial bolt preloads, bolt loads increased as external applied loads increased. For higher initial bolt preloads, less load was

transferred into the bolt, due to external applied loading. Lower torque limits were established for pump port cap fasteners and additional limits were placed on insert axial deformation under operating conditions after seating the insert with an initial preload.

TM—2004–213283

June 2004

NASA Marshall Space Flight Center Barrel-Shaped Asymmetrical Capacitor. J.W. Campbell, M.R. Carruth, D.L. Edwards, A. Finchum, G. Maxwell, S. Nabors, L. Smalley,* D. Huston,** D. Ila,** R. Zimmerman,** C. Muntele,** and I. Muntele.** Advanced Projects Office, Flight Projects Directorate, *The University of Alabama in Huntsville, and **Alabama A&M University.

The NASA Barrel-Shaped Asymmetrical Capacitor (NACAP) has been extensively tested at NASA Marshall Space Flight Center and the National Space Science and Technology Center. Trichel pulse emission was first discovered here. The NACAP is a magnetohydrodynamic device for electric propulsion. In air it requires no onboard propellant nor any moving parts. No performance was observed in hard vacuum. The next step shall be optimizing the technology for future applications.

TM—2004–213286

June 2004

The Geostationary Operational Environmental Satellite (GOES) Product Generation System. S.L. Haines, R.J. Suggs, and G.J. Jedlovec. Earth Science Department, Science Directorate.

The Geostationary Operational Environmental Satellite (GOES) Product Generation System (GPGS) is introduced and described. GPGS is a set of computer programs developed and maintained at the Global Hydrology and Climate Center and is designed to generate meteorological data products using visible and infrared measurements from the GOES-East Imager and Sounder instruments. The products that are produced by GPGS are skin temperature, total precipitable water, cloud top pressure, cloud albedo, surface albedo, and surface insolation. A robust cloud mask is also generated. The retrieval methodology for each product is described to include algorithm descriptions and required inputs and outputs for the programs. Validation is supplied where applicable.

TM—2004–213393

September 2004

X-Ray Calibration Facility/Advanced Video Guidance Sensor Test. N.A.S. Johnston, R.T. Howard, and D.W. Watson. Avionics Department, Engineering Directorate.

The advanced video guidance sensor was tested in the X-Ray Calibration facility at Marshall Space Flight Center to establish performance during vacuum. Two sensors were tested

NASA TECHNICAL MEMORANDA

and a timeline for each are presented. The sensor and test facility are discussed briefly. A new test stand was also developed. A table establishing sensor bias and spot size growth for several ranges is detailed along with testing anomalies.

TM—2004–213394

September 2004

Science Directorate Publications and Presentations,
January 1–December 31, 2003. Compiled by F.G. Summers. Business Management Office, Science Directorate.

This Technical Memorandum (TM) lists the significant publications and presentations of the Science Directorate during the period January 1–December 31, 2003. Entries in the main

part of the TM are categorized according to NASA Reports (arranged by report number), Open Literature and Presentations (arranged alphabetically by title). Most of the articles listed under Open Literature have appeared in refereed professional journals, books, monographs, or conference proceedings. Although many published abstracts are eventually expanded into full papers for publication in scientific and technical journals, they are often sufficiently comprehensive to include the significant results of the research reported. Therefore, published abstracts are listed separately in a subsection under Open Literature. Questions or requests for additional information about the entries in this TM should be directed to Dr. A.F. Whitaker (SD01; 544–2481) or to one of the authors.

TP—2003–212691

November 2003

Conceptual Design of In-Space Vehicles for Human Exploration of the Outer Planets. R.B. Adama, R.A. Alexander, J.M. Chapman, S.S. Fincher, R.C. Hopkins, A.D. Philips, T.T. Polsgrove, R.J. Litchford, B.W. Patton, G. Statham,* P.S. White,* and Y.C.F. Thio**. Program Planning and Development Office, Space Transportation Directorate, *ERC, Inc., and U.S. Department of Energy.

During fiscal year 2002, a team of engineers from TD30/Advanced Concepts and TD40/Propulsion Research Center embarked on a study of potential crewed missions to the outer solar system. This study was conducted under the auspices of the Revolutionary Aerospace Systems Concepts activity administered by Langley Research Center (LaRC). The Marshall Space Flight Center (MSFC) team interacted heavily with teams from other Centers, including Glenn Research Center, LaRC, Jet Propulsion Laboratory, and Johnson Space Center. The MSFC team generated five concept missions for this project. The concept missions use a variety of technologies, including magnetized target fusion (MTF), magnetoplasmadynamic thrusters, solid core reactors, and molten salt reactors in various combinations. This Technical Publication (TP) reviews these five concepts and the methods used to generate them. The analytical methods used are described for all significant disciplines and subsystems. The propulsion and power technologies selected for each vehicle are reviewed in detail. The MSFC team also expended considerable effort refining the MTF concept for use with this mission. The results from this effort are also contained within this TP. Finally, the lessons learned from this activity are summarized in the conclusions section.

TP—2003–212927

November 2003

Gauging the Nearness and Size of Cycle Maximum. Robert M. Wilson and David H. Hathaway. Space Science Department, Science Directorate.

A simple method for monitoring the nearness and size of conventional cycle maximum for an ongoing sunspot cycle is examined. The method uses the observed maximum daily value and the maximum monthly mean value of international sunspot number and the maximum value of the 2-mo moving average of monthly mean sunspot number to effect the estimation. For cycle 23, a maximum daily value of 246, a maximum monthly mean of 170.1, and a maximum 2-mo moving average of 148.9 were each observed in July 2000. Taken together, these values strongly suggest that conventional maximum amplitude for cycle 23 would be ≈ 124.5 , occurring near July 2002 ± 5 mo, very close to the now well-established conventional maximum amplitude and occurrence date for cycle 23—120.8 in April 2000.

TP—2003–212929

November 2003

Nucleation Behavior of Oxygen-Acetylene Torch-Produced Diamond Films. F.E. Roberts. Materials, Processes, and Manufacturing Department, Engineering Directorate.

A mechanism is presented for the nucleation of diamond in the combustion flame environment. A series of six experiments and two associated simulations provide results from which the mechanism was derived. A substantial portion of the prior literature was reviewed and the data and conclusions from the previous experimenters were found to support the proposed mechanism. The nucleation mechanism builds on the work of previous researchers but presents an approach to nucleation in a detail and direction not fully presented heretofore. This work identifies the gas phase as the controlling environment for the initial formulation steps leading to nucleation. The development mechanism explains some of the difficulty which has been found in producing single crystal epitaxial films.

An experiment which modified the initial gas phase precursor using methane and carbon monoxide is presented. Addition of methane into the precursor gases was found to be responsible for pillaring of the films. Atomic force microscopy surface roughness data provided a reasonable look at suppression of nucleation by carbon monoxide. Surface finish data was taken on crystals which were open to the nucleation environment and generally parallel to the substrate surface. These surfaces were measured as an independent measure of the instantaneous nucleation environment. A gas flow and substrate experiment changed the conditions on the surface of the sample by increasing the gas flow rate while remaining on a consistent point of the atomic constituent diagram, and by changing the carbide potential of the substrate. Two tip modification experiments looked at the behavior of gas phase nucleation by modifying the shape and behavior of the flame plasma in which the diamond nucleation is suspected to occur. Diamond nucleation and growth was additionally examined using a high-velocity oxygen fuel gun and C_3H_6 as the fuel gas phase precursor with addition of carbon monoxide gas or addition of liquid toluene.

TP—2004–213089

July 2004

Survey of Technologies Relevant to Defense From Near-Earth Objects. R.B. Adams, R.A. Alexander, J. Bonemetti, J.M. Chapman, S.S. Fincher, R.C. Hopkins, M. Kalkstein, T.T. Polsgrove, G. Statham,* and P.S. White*. Advanced Concepts Department, Space Transportation Directorate, and *ERC, Inc.

Several recent near-miss encounters with asteroids and comets have focused attention on the threat of a catastrophic impact with the Earth. This Technical Publication reviews the historical impact record and current understanding of the number and location of near-Earth objects (NEOs) to address their impact probability. Various ongoing projects intended to survey and catalog the NEO population are also reviewed. Details are

given of a Marshall Space Flight Center-led study intended to develop and assess various candidate systems for protection of the Earth against NEOs. Details of analytical tools, trajectory tools, and a tool that was created to model both the undeflected inbound path of an NEO as well as the modified, postdeflection path are given. A representative selection of these possible options was modeled and evaluated. It is hoped that this study will raise the level of attention about this very real threat and also demonstrate that successful defense is both possible and practicable, provided appropriate steps are taken.

TP—2004–213143

April 2004

Plasma Sail Concept Fundamentals. G.V. Khazanov, P. Delamere,* K. Kabin,** and T.J. Linde***. Space Science Department, Science Directorate, *University of Colorado, **University of Alberta, and ***The University of Chicago.

The mini-magnetospheric plasma propulsion (M2P2) device, originally proposed by Winglee et al., predicts that a 15-km standoff distance (or 20-km cross-sectional dimension) of the magnetic bubble will provide for sufficient momentum transfer from the solar wind to accelerate a spacecraft to unprecedented speeds of 50–80 km/s after an acceleration period of ≈ 3 mo. Such velocities will enable travel out of the solar system in a period of ≈ 7 yr—almost an order of magnitude improvement over present chemical-based propulsion systems. However, for the parameters of the simulation of Winglee et al., a fluid model for the interaction of M2P2 with the solar wind is not valid. It is assumed in the magnetohydrodynamic (MHD) fluid model, normally applied to planetary magnetospheres, that the characteristic scale size is much greater than the Larmor radius and ion skin depth of the solar wind. In the case of M2P2, the size of the magnetic bubble is actually less than or comparable to the scale of these characteristic parameters. Therefore, a kinetic approach, which addresses the small-scale physical mechanisms, must be used. A two-component approach to determining a preliminary estimate of the momentum transfer to the plasma sail has been adopted. The first component is a self-consistent MHD simulation of the small-scale expansion phase of the magnetic bubble. The fluid treatment is valid to roughly 5 km from the source and the steady-state MHD solution at the 5 km boundary was then used as initial conditions for the hybrid simulation. The hybrid simulations showed that the forces delivered to the innermost regions of the plasma sail are considerably (≈ 10 times) smaller than the MHD counterpart, are dominated by the magnetic field pressure gradient, and are directed primarily in the transverse direction.

TP—2004–213173

May 2004

Performance Theory of Diagonal Conducting Wall Magnetohydrodynamic Accelerators. R.J. Litchford. Advanced Space Transportation Program, Space Transportation Directorate.

The theoretical performance of diagonal conducting wall crossed-field accelerators is examined on the basis of an infinite segmentation assumption using a cross-plane averaged generalized Ohm's law for a partially ionized gas, including ion slip. The desired accelerator performance relationships are derived from the cross-plane averaged Ohm's law by imposing appropriate configuration and loading constraints. A current-dependent effective voltage drop model is also incorporated to account for cold-wall boundary layer effects, including gasdynamic variations, discharge constriction, and electrode falls. Definition of dimensionless electric fields and current densities leads to the construction of graphical performance diagrams, which further illuminate the rudimentary behavior of crossed-field accelerator operation.

TP—2004–213281

June 2004

Application of the Maximum Amplitude-Early Rise Correlation to Cycle 23. Robert M. Wilson and David H. Hathaway. Space Science Department, Science Directorate.

On the basis of the maximum amplitude-early rise correlation, cycle 23 could have been predicted to be about the size of the mean cycle as early as 12 mo following cycle minimum. Indeed, estimates for the size of cycle 23 throughout its rise consistently suggested a maximum amplitude that would not differ appreciably from the mean cycle, contrary to predictions based on precursor information. Because cycle 23's average slope during the rising portion of the solar cycle measured 2.4, computed as the difference between the conventional maximum (120.8) and minimum (8) amplitudes divided by the ascent duration in months (47), statistically speaking, it should be a cycle of shorter period. Hence, conventional sunspot minimum for cycle 24 should occur before December 2006, probably near July 2006 (± 4 mo). However, if cycle 23 proves to be a statistical outlier, then conventional sunspot minimum for cycle 24 would be delayed until after July 2007, probably near December 2007 (± 4 mo). In anticipation of cycle 24, a chart and table are provided for easy monitoring of the nearness and size of its maximum amplitude once onset has occurred (with respect to the mean cycle and using the updated maximum amplitude-early rise relationship).

TP—2004–213284

June 2004

Toxic Gas Exposure Risks Associated With Potential Shuttle Catastrophic Failures. B. Jeffrey Anderson and Rebecca C. McCaleb. Engineering Systems Department, Engineering Directorate.

From early in the Shuttle program, the National Aeronautics and Space Administration has modeled hydrogen chloride (HCl) release by burning solid propellant in the solid rocket boosters. In 1998, the United States Air Force 45th Space Wing

instituted more stringent launch commit criteria (LCC) for the Titan and Delta vehicles and proposed that the same LCC be applied to the Shuttle to enhance safety of onsite visitors and offsite public. Two types of health and safety standards were applicable: (1) Expected casualties and risk and (2) air quality emergency response.

This study addresses the issues using the U.S. Environmental Protection Agency-recommended model, CALPUFF. Results were compared to those produced by the USAF model, REEDM, developed for projecting air quality from nominal launches. Model performance was also evaluated against results of a Kennedy Space Center-sponsored study at the Los Alamos National Laboratory (LANL) using a computer-intensive, wild-fire model.

CALPUFF and the LANL model are capable of multipuff modeling of multiple sources. REEDM is a single-source, single-puff model. This study revealed significant deficiencies in REEDM when applied to the catastrophic failure problem. CALPUFF results indicate that, if a Shuttle abort were to occur over land, serious levels of HCl exposure could occur out to distances of at least 10 km, sufficient range to include major onsite visitor viewing areas. A preliminary survey of mitigation alternatives indicates cost-effective measures could be implemented that are sufficiently protective. Recent safety initiatives in response to the *Columbia* Accident Investigation Board report are not reflected here.

TP—2004–213338

August 2004

Displacement Damage Effects in Solar Cells—Mining Damage From the Microelectronics and Photonics Test Bed Space Experiment. R.J. Walters, T.L. Mortin,* and S.R. Messenger**. NASA's Space Environments and Effects (SEE) Program, *Ohio Aerospace Institute, and **SFA, Inc.

The objective is to develop an improved space solar cell radiation response analysis capability and to produce

a computer modeling tool which implements the analysis. This was accomplished through analysis of solar cell flight data taken on the Microelectronics and Photonics Test Bed experiment. This effort specifically addresses issues related to rapid technological change in the area of solar cells for space applications in order to enhance system performance, decrease risk, and reduce cost for future missions.

TP—2004–213339

August 2004

Solar Variability and the Near-Earth Environment—Mining Enhanced Low Dose Rate Sensitivity Data From the Microelectronics and Photonics Test Bed Space Experiment. T. Turlinger, W. Schmeichel, J. Krieg, J. Titus, A. Campbell,* M. Reeves,* and P. Marshall**. NASA's Space Environments and Effects (SEE) Program, NAVSEA Crane, and the *Naval Research Laboratory.

This effort is a detailed analysis of existing microelectronics and photonics test bed satellite data from one experiment, the bipolar test board, looking to improve our understanding of the enhanced low dose rate sensitivity (ELDRS) phenomenon. Over the past several years, extensive total dose irradiations of bipolar devices have demonstrated that many of these devices exhibited ELDRS. In sensitive bipolar transistors, ELDRS produced enhanced degradation of base current, resulting in enhanced gain degradation at dose rates $<0.1 \text{ rd(Si)/s}$ compared to similar transistors irradiated at dose rates $>1 \text{ rd(Si)/s}$. This Technical Publication provides updated information about the test devices, the in-flight experiment, and both flight-and ground-based observations. Flight data are presented for the past 5 yr of the mission. These data are compared to ground-based data taken on devices from the same date code lots. Information about temperature fluctuations, power shut-downs, and other variables encountered during the space flight are documented.

CP—2003—212931

November 2003

5th Conference on Aerospace Materials, Processes, and Environmental Technology. M.B. Cook and D. Cross Stanley, Editors. Materials, Processes, and Manufacturing Department, Engineering Directorate.

The next millennium challenges us to produce innovative materials, processes, manufacturing, and environmental technologies that meet low-cost aerospace transportation needs while maintaining U.S. leadership. The pursuit of advanced aerospace materials, manufacturing processes, and environmental technologies supports the development of safer, operational, next-generation, reusable, and expendable aeronautical and space vehicle systems. The Aerospace Materials, Processes, and Environmental Technology Conference provided a forum for manufacturing, environmental, materials, and processes engineers, scientists, and managers to describe, review, and critically assess advances in these key technology areas.

March 2004

NASA Workshop on Technology for Human and Robotic Exploration and Development of Space. J.C. Mankins,* N. Marzwell,** C.A. Mullins,† C.B. Christensen,† J.T. Howell, and D.A. O'Neil. Advanced Projects Office, Flight Projects Directorate, *NASA Headquarters, **Jet Propulsion Laboratory, and †The Tauri Group.

Continued constrained budgets and growing interests in the industrialization and development of space requires NASA to seize every opportunity for assuring the maximum return on space infrastructure investments. This workshop provided an excellent forum for reviewing, evaluating, and updating pertinent strategic planning, identifying advanced concepts and high-risk/high-leverage research and technology requirements, developing strategies and roadmaps, and establishing approaches, methodologies, modeling, and tools for facilitating the commercial development of space and supporting diverse exploration and scientific missions. Also, the workshop addressed important topic areas including revolutionary space systems requiring investments in innovative advanced technologies; achieving transformational space operations through the insertion of new technologies; revolutionary science in space through advanced systems and new technologies enabling experiments to go anytime to any location; and, innovative and ambitious concepts and approaches essential for promoting advancements in space transportation. Details concerning the workshop process, structure, and results are contained in the ensuing report.

CP—2004—213091

March 2004

8th Spacecraft Charging Technology Conference. J.L. Minor, Compiler. NASA's Space Environments and Effects (SEE) Program.

The 8th Spacecraft Charging Technology Conference was held in Huntsville, Alabama, October 20–24, 2003. Hosted by NASA's Space Environments and Effects (SEE) Program and co-sponsored by the Air Force Research Laboratory (AFRL) and the European Space Agency (ESA), the 2003 conference saw attendance from eleven countries with over 65 oral papers and 18 poster papers in the areas of Plasma Propulsion and Tethers, Ground Testing Techniques, Interactions of Spacecraft and Systems With the Natural and Induced Plasma Environment, Materials Characterizations, Models and Computer Simulation, Environment Specifications, Current Collection and Plasma Probes in Space Plasmas, and On-Orbit Investigations. A round-table discussion of international standards regarding electrostatic discharge (ESD) testing was also held with the promise of continued discussions in the off years and an official continuation at the next conference.

CP—2004—213229

June 2004

Transformational Systems Concepts and Technologies for Our Future in Space. J.T. Howell, P. George,* J.C. Mankins,** and C.B. Christensen†. Advanced Projects Office, Flight Projects Directorate, *Glenn Research Center, **NASA Headquarters, and †The Tauri Group.

NASA is constantly searching for new ideas and approaches yielding opportunities for assuring maximum returns on space infrastructure investments. Perhaps the idea of transformational innovation in developing space systems is long overdue. However, the concept of utilizing modular space system designs combined with stepping-stone development processes has merit and promises to return several times the original investment since each new space system or component is not treated as a unique and/or discrete design and development challenge. New space systems can be planned and designed so that each builds on the technology of previous systems and provides capabilities to support future advanced systems. Subsystems can be designed to use common modular components and achieve economies of scale, production, and operation. Standards, interoperability, and "plug and play" capabilities, when implemented vigorously and consistently, will result in systems that can be upgraded effectively with new technologies. This workshop explored many building-block approaches via way of example across a broad spectrum of technology discipline areas for potentially transforming space systems and inspiring future innovation. Details describing the workshop structure, process, and results are contained in this Conference Publication.

CR—2003—212745

October 2003

Characterization of Magnetospheric Spacecraft Charging Environments Using the LANL Magnetospheric Plasma Analyzer Data Set. V.A. Davis, M.J. Mandell, and M.F. Thomsen. NASA's Space Environments and Effects (SEE) Program, Science Applications International Corporation.

An improved specification of the plasma environment has been developed for use in modeling spacecraft charging. It was developed by statistically analyzing a large part of the LANL Magnetospheric Plasma Analyzer (MPA) data set for ion and electron spectral signature correlation with spacecraft charging, including anisotropies. The objective is to identify a relatively simple characterization of the full particle distribution that yield an accurate prediction of the observed charging under a wide variety of conditions.

CR—2004—213227

June 2004

Analysis of CRRES PHA Data for Low-Energy-Deposition Events. P.J. McNulty. NASA's Space Environments and Effects (SEE) Program, Clemson University.

This effort analyzed the low-energy deposition Pulse Height Analyzer (PHA) data from the Combined Release and Radiation Effects Satellite (CRRES). The high-energy deposition data had been previously analyzed and shown to be in agreement with spallation reactions predicted by the Clemson University Proton Interactions in Devices (CUPID) simulation model and existing environmental and orbit positioning models (AP-8 with USAF B-L coordinates). The scope of this project was to develop and improve the CUPID model by increasing its range to lower incident particle energies, and to expand the modeling to include contributions from elastic interactions. Before making changes, it was necessary to identify experimental data suitable for benchmarking the codes; then, the models to the CRRES PHA data could be applied. It was also planned to test the model against available low-energy proton or neutron SEU data obtained with mono-energetic beams.

CR—2004—213228

June 2004

Mining CRRES IDM Pulse Data and CRRES Environmental Data to Improve Spacecraft Charging/Discharging Models and Guidelines. A.R. Frederickson and D.H. Brautigam*. NASA's Space Environments and Effects (SEE) Program, *Caltech Jet Propulsion Laboratory.

One can truly predict the charging and pulsing in space over a year's time using only the physics that worked for periods of an hour and less in prior publications. All portions of the task were achieved, including the optional portion of determining a value for conductivity that best fit the data.

Fortran statements were developed that are required for the NUMIT runs to work with this kind of data from space. In addition to developing the Fortran for NUMIT, simple correlations between the IDM pulsing history and the space radiation were observed because we now have a better characterization of the space radiation.

The study showed that: (1) the new methods for measurement of charge storage and conduction in insulators provide the correct values to use for prediction of charging and pulsing in space; (2) the methods in NUMIT that worked well for time durations less than hours now work well for durations of months; (3) an average spectrum such as AE8 is probably not a good guide for predicting pulsing in space—one must take time dependence into account in order to understand insulator pulsing; and (4) the old method for predicting pulse rates in space that was based on the CRRES data could be improved to include dependencies on material parameters.

CR—2004—213285

May 2004

The 2003 NASA Faculty Fellowship Program Research Reports. S.K. Nash-Stevenson, G. Karr,* and L.M. Freeman*** (Program Directors) and J. Bland (Compiler and Editor). Education Programs Department, Customer and Employee Relations Directorate, *The University of Alabama in Huntsville, and **The University of Alabama.

For the 39th consecutive year, the NASA Faculty Fellowship Program (NFFP) was conducted at Marshall Space Flight Center. The program was sponsored by NASA Headquarters, Washington, DC, and operated under contract by The University of Alabama in Huntsville. In addition, promotion and applications are managed by the American Society for Engineering Education (ASEE) and assessment is completed by Universities Space Research Association (USRA). The nominal starting and finishing dates for the 10-week program were May 27 through August 1, 2003. The primary objectives of the NASA Faculty Fellowship Program are to: (1) Increase the quality and quantity of research collaborations between NASA and the academic community that contribute to NASA's research objectives; (2) provide research opportunities for college and university faculty that serve to enrich their knowledge base; (3) involve students in cutting-edge science and engineering challenges related to NASA's strategic enterprises, while providing exposure to the methods and practices of real-world research; (4) enhance faculty pedagogy and facilitate interdisciplinary networking; (5) encourage collaborative research and technology transfer with other Government agencies and the private sector; and (6) establish an effective education and outreach activity to foster greater awareness of this program.

MSFC ABSTRACTS, ARTICLES, PAPERS, AND PRESENTATIONS CLEARED FOR DISSEMINATION
(Publicly available. Dates are conference dates.)

- Materials—Abstract Only. For presentation at the Microscopy and Microanalysis 2004 Conference, Savannah, GA, August 1–5, 2004.
- CARRASQUILLO, R.L. FD21
BAGDIGIAN, B. FD21
PERRY, J.L. FD21
LEWIS, J.
Evolution of the Baseline *ISS* ECLSS Technologies—The Next Logical Steps—Abstract Only. For presentation at the 34th International Conference on Environmental Systems, Colorado Springs, CO, July 19–22, 2004.
- CARRASQUILLO, R.L. FD21
CLOUD, D. Hamilton Sundstrand
BEDARD, J. Hamilton Sundstrand
Status of the Node 3 Regenerative ECLSS Water Recovery and Oxygen Generation Systems—Abstract Only. For presentation at the 34th International Conference on Environmental Systems, Colorado Springs, CO, July 19–22, 2004.
- CARRIER, M. Florida State University
ZOU, X. Florida State University
LAPENTA, W.M. SD60
JEDLOVEC, G.J. SD60
Assessing the Usefulness of AIRS Radiance Observations in a 4D-Var Assimilation Scheme Using the Penn State/NCAR Mesoscale Model Version 5 (MM5) and a Stand Alone Radiative Transfer Algorithm (SARTA)—Abstract Only. For presentation at the 13th Conference on Satellite Meteorology and Oceanography, Norfolk, VA, September 20–24, 2004.
- CARRINGTON, C.K. FD02
DAY, G. Boeing Phantom Works
A High-Energy Technology Demonstration Platform: The First Step in a Stepping Stones Approach to Energy-Rich Space Infrastructures—Abstract/Final Paper. For presentation at the 55th International Astronautical Congress, Vancouver, British Columbia, Canada, October 4–8, 2004.
- CARRINGTON, C.K. FD02
HOWELL, J.T. FD02
DAY, G. Boeing Phantom Works
A 100 kW-Class Technology Demonstrator for Space Solar Power—Abstract Only. For presentation at the Fourth International Conference on Solar Power From Space, Granada, Spain, June 30–July 2, 2004.
- CARTER, L. FD21
TATARA, J.D. FD21
MASON, R. FD21
- O’CONNOR, E. FD21
BEDARD, J. FD21
Performance Assessment of the *ISS* Water Processor Assembly Reactor—Abstract Only. For presentation at the 34th International Conference on Environmental Systems, Colorado Springs, CO, July 19–22, 2004.
- CASIANO, M.J. TD63
ZOLADZ, T.F. TD63
Acoustic Modeling and Analysis for the Space Shuttle Main Propulsion System Liner Crack Investigation—Abstract Only. For presentation at the 40th AIAA/ASME/SAE/ASEE Joint Propulsion Conference and Exhibit, Fort Lauderdale, FL, July 11–14, 2004.
- CATALINA, A.V. BAE/SD46
STEFANESCU, D.M. University of Alabama
SEN, S. SD46
Analytical Solution for the Critical Velocity of Pushing/Engulfment Transition—Abstract Only. For presentation at the TMS Annual Meeting, Charlotte, NC, March 14–18, 2004.
- CECIL, D.J. UAH
LAFONTAINE, F.J. Raytheon ITSS
HOOD, R.E. SD60
BLAKESLEE, R.J. SD60
MACH, D.M. UAH
HEYSFIELD, G. Goddard Space Flight Center
Classification of Tropical Oceanic Precipitation Using High Altitude Aircraft Microwave and Electric Field Measurements—Abstract Only. For presentation at and publication in Proceedings of Eos 2004 Joint Assembly: AGU, Canadian Geophysical Union, and Society of Exploration Geophysicists, Montreal, CA, May 17–24, 2004; and for publication in Proceedings of the 26th AMS Conference on Hurricanes & Tropical Meteorology, Miami, FL, May 3–7, 2004.
- CHANG, H. UAH
SMITH, D.D. SD46
Gain-Assisted Superluminal Propagation in Coupled Optical Resonators—Abstract Only. For presentation at the Optical Society of American Frontiers in Optical Conference (OSA), Rochester, NY, October 10–14, 2004.
- CHANG, J. Purple Mountain Observatory
SCHMIDT, W.K.H. Max Planck Institute
ADAMS, J.H. SD50
AHN, H.S. University of Maryland
BASHINDZHAGYAN, G.L. Moscow State University
BATKOV, K.E. Moscow State University

(Publicly available. Dates are conference dates.)

Simultaneous Chandra X-Ray, HST UV, and Ulysses Radio Observations of Jupiter's Aurora—Abstract Only. For presentation at the 2004 Meeting of the High Energy Astrophysics Division of the American Astronomical Society, New Orleans, LA, September 8–11, 2004.

Methods and Piezoelectric Imbedded Sensors for Damage Detection in Composite Plates Under Ambient and Cryogenic Conditions—Final Paper. For presentation at the Society of Photo-Optical Instrumentation Engineers, San Diego, CA, March 14–16, 2004.

ELSNER, R.F.	SD50	ENGELHAUPT, D.	UAH
RAMSEY, B.D.	SD50	RAMSEY, B.D.	SD50
WAITE, JR., J.H.	University of Michigan	Electrodeposition of High Quality Nickel Phosphorous Alloys for Pollution Reduction and Energy Conservation—Abstract Only. For presentation at and publication in Proceedings of the American Electroplaters & Surface Finishers Society Week 2004, Lake Buena Vista, FL, January 26–30, 2004, and for presentation at the American Electroplaters and Surface Finishers Society’s Aerospace/Airline Plating & Metal Finishing Forum, Tulsa, OK, March 29–April 1, 2004.	
REHAK, P.	BNL		
JOHNSON, R.E.	University of Virginia		
COOPER, J.F.	Raytheon		
SWARTZ, D.A.	USRA		
X-MIME: An Imaging X-Ray Spectrometer for Detailed Study of Jupiter’s Icy Moons and the Planet’s X-Ray Aurora—Abstract Only. For presentation at the 36th Annual DPS Meeting, Louisville, KY, November 8–12, 2004.			
ELSNER, R.F.	SD50	ESTES, H.	ED17
RAMSEY, B.D.	SD50	A NASA SHARP Mentoring Experience Utilizing GP-B—Presentation. For presentation at the American Association of Physics Teachers 128th National Meeting, Miami Beach, FL, January 24–28, 2004.	
WAITE, JR., J.H.	University of Michigan	Tethers as Debris: Simulating Impacts of Kevlar Tethers on Shuttle Tiles—Final Paper. For presentation at the 45th AIAA/ASME/ASCE/AHS Structures, Structural Dynamics, and Materials Conference, Palm Springs, CA, April 19–24, 2004.	
REHAK, P.	Brookhaven National Laboratory		
JOHNSON, R.E.	University of Virginia		
COOPER, J.F.	Raytheon		
SWARTZ, D.A.	USRA/SD50	EVANS, S.W.	ED44
X-Ray Probes of Magnetospheric Interactions With Jupiter’s Auroral Zones, the Galilean Satellites, and the Io Plasma Torus—Abstract Only. For publication in Icarus, 2004.			
EMERSON, C.W.	Western Michigan University	EVANS, S.W.	ED44
LAM, S.-N.	Louisiana State University	STALLWORTH, R.	ED23
QUATTROCHI, D.A.	SD60	STELLINGWERF, R.F.	Stellingwerf Consulting
A Comparison of Local Variance Fractal Dimension, and Moran’s I as Aids to Multispectral Image Classification—Abstract Only. For publication in the International Journal of Remote Sensing, 2004.		Comparison of SPHC Hydrocode Results With Penetration Equations and Results of Other Codes—Final Paper. For presentation at the 45th AIAA/ASME/ASCE/AHS Structures, Structural Dynamics, and Materials Conference, Palm Springs, CA, April 19–24, 2004.	
EMRICH, W.J.	TD40	FALCONER, D.A.	SD50
HAWK, C.W.	UAH	MOORE, R.L.	SD50
Magnetohydrodynamic Instabilities in a Simple Gasdynamic Mirror Propulsion System—Final Paper. For publication in the Journal of Propulsion and Power, 2004.		GARY, G.A.	SD50
ENG, R.	SD72	Prediction of Active-Region CME Productivity From Magnetograms—Abstract Only. For publication in The Astrophysical Journal, 2004.	
STAHL, P.	SD72	FALCONER, D.A.	UAH/SD50
HOGUE, W.	SD72	MOORE, R.L.	SD50
HADAWAY, J.	UAH	GARY, G.A.	SD50
Poco Graphite Inc. SuperSiC 0.25m Mirror Cryogenic Test Result—Abstract Only. For presentation at the Mirror Technology Days, Huntsville, AL, August 17–19, 2004.		BALASUBRAMANIAN, S.	UAH/SD50
ENGBERG, R.C.	ED27	Forecasting Coronal Mass Ejections From Magnetograms—Abstract Only. For presentation at the Living With a Star Workshop, Boulder, CO, March 23–26, 2004;	
OOI, T.K.	UAH		

MSFC ABSTRACTS, ARTICLES, PAPERS, AND PRESENTATIONS CLEARED FOR DISSEMINATION
(Publicly available. Dates are conference dates.)

- for presentation at and publication in Proceedings of the American Astronomical Society, Solar Physics Division, Denver, CO, May 31–June 3, 2004; and for presentation at the Solar, Heliospheric and Interplanetary Environment 2004 Workshop, Big Sky, MT, June 27–July 2, 2004.
- FARR, R.A. TD72
ELAM, S.K. TD61
HICKS, E.D. Jacobs Sverdrup
SANDERS, T.M. TD72
LONDON III, J.R. TD70
MAYNE, A.W. TRW (Retired)
CHRISTENSEN, D.L. Lockheed Martin
The 2003 Goddard Rocket Replica Project: A Reconstruction of the World's First Functional Liquid Rocket System—Final Paper. For presentation at the 42nd AIAA Aerospace Sciences Meeting and Exhibit, Reno, NV, January 5–8, 2004.
- FERGUSON, C.K. SD22
ABUSHAGUR, M. SD22
ENGLISH, J.M. SD22
NORDIN, G.P. SD22
Design and Analysis of a MEMS Micro-Translation Stage With Indefinite Travel—Abstract Only. For presentation at the Nanospace 2003, Galveston, TX, February 2004.
- FISHMAN, G.J. SD50
The Mystery of Gamma-Ray Bursts—Abstract Only. For presentation at the Rice University Space Exploration Series, Houston, TX, March 22, 2004.
- FLANDRO, G.A. University of Tennessee
MAJDALANI, J. University of Tennessee
SIMS, J.D. TD07
Nonlinear Longitudinal Mode Instability in Liquid Propellant Rocket Engine Preburners—Final Paper. For presentation at the 40th AIAA/ASME/SAE/ASEE Joint Propulsion Conference and Exhibit, Fort Lauderdale, FL, July 11–14, 2004.
- FLASAR, F.M. Goddard Space Flight Center
KUNDE, V.G. University of Maryland
ABBAS, M.M. SD50
ACHERBERG, R.K. Science Systems & Applications
ADE, P. University of Cardiff
BARUCCI, A. Observatoire de Paris
BEZARD, B. Observatoire de Paris
BJORAKER, G.L. Goddard Space Flight Center
BRASUNAS, J.C. Goddard Space Flight Center
ET AL.
Exploring the Saturn System in the Thermal Infrared: The Composite Infrared Spectrometer—Abstract Only. For publication in Space Science Reviews, 2004.
- FLASAR, F.M. Goddard Space Flight Center
KUNDE, V.G. University of Maryland
ACHERBERG, R.K. Science Systems & Applications
CONRATH, B.J. Cornell University
SIMON-MILLER, A.A. Goddard Space Flight Center
NIXON, C.A. University of Maryland
GIERASCH, P.J. Cornell University
ROMANI, P.N. Goddard Space Flight Center
ABBAS, M.M. SD50
ET AL.
Prospecting Jupiter in the Thermal Infrared: Temperatures and Dynamics—Abstract Only. For publication in Nature, 2004.
- FORBES, J.C. TD62
XENOFOS, G.D. TD62
FARROW, J.L. Qualis Corporation/TD62
TYLER, T. TD63
WILLIAMS, R. TD64
SARGENT, S. Boeing/Rocketdyne
MOHAROS, J. Boeing/Rocketdyne
Mechanical Design of a Performance Test Rig for the Turbine Air-Flow Task (TAFT)—Final Paper. For presentation at the 52nd JANNAF Meeting/1st Liquid Propulsion Subcommittee Meeting, Las Vegas, NV, May 10–13, 2004.
- FORSYTHE, E.L. BAE Systems
GORTI, S. SD46
PUSEY, M.L. SD46
The Crystallization of Canavalin as a Function of pH and NaCl Concentration—Abstract Only. For publication in the Acta Crystallographica D Journal, 2004.
- FOX, N.J. SD50
GOLDBERG, R. SD50
BARNES, R.J. SD50
SIGWARTH, J.B. SD50
BEISSER, K.B. SD50
MOORE, T.E. SD50
HOFFMAN, R.A. SD50
RUSSELL, C.T. SD50
SPANN, J.F. SD50
ET AL.
Packaging a Successful NASA Mission to Reach a Large Audience Within a Small Budget—Earth's Dynamic Space: Solar-Terrestrial Physics & NASA's Polar Mission—Abstract Only. For presentation at and publication in Proceedings of the Fall AGU 2004 Meeting, San Francisco, CA, December 13–17, 2004.
- FULLER, K.A. UAH
SMITH, D.D. SD46
Characteristic Matrices for Spherical Shell Photonic Systems—Final Paper. For publication in Optic Letters, 2004.

MSFC ABSTRACTS, ARTICLES, PAPERS, AND PRESENTATIONS CLEARED FOR DISSEMINATION
(Publicly available. Dates are conference dates.)

FUSS, T.	University of Missouri-Rolla	WILLIAMS, R.	TD64
RAY, C.S.	SD46	Overview of MSFC's Applied Fluid Dynamics Analysis Group Activities—Presentation. For presentation at the MSFC Spring Fluid Workshop, MSFC, AL, April 13, 2004.	
LESHER, C.E.	University of California-Davis		
DAY, D.E.	University of Missouri-Rolla	GARY, G.A.	SD50
Crystallization of an $\text{Li}_2\text{O}_2\text{SiO}_2$ Glass Under High Hydrostatic Pressures—Abstract Only. For presentation at the 106th Annual Meeting of the American Ceramic Society, Indianapolis, IN, April 18–21, 2004.		MOORE, R.L.	SD50
		Eruption of a Multiple-Turn Helical Magnetic Flux Tube in a Large Flare: Evidence for External and Internal Reconnection that Fits the Breakout Model of Solar Magnetic Eruptions—Abstract Only. For publication in <i>The Astrophysical Journal</i> , 2003.	
GALLAGHER, D.L.	SD50		
When Earth Songs Filled the Void of Space—Abstract Only. For presentation at the Birmingham Astronomical Society, Birmingham, AL, January 20, 2004.		GATLIN, P.N.	SD60
		GOODMAN, S.J.	SD60
GALLAGHER, D.L.	SD50	Signatures in Lightning Activity During Tennessee Valley Severe Storms of 5–6 May 2003—Final Paper. For presentation at and publication in <i>Proceedings of the American Meteorological Society 2nd Conference on Severe Local Storms</i> , Hyannis, MA, October 5–8, 2004.	
Space Weather—Abstract Only. For presentation at the MSFC Educator Resource Center: Teacher Workshop, Huntsville, AL, January 27, 2004.			
GALLAGHER, D.L.	SD50	GERMANY, G.	UAH
Seeing the Invisible With the IMAGE Mission—Abstract Only. For presentation at the Royal Observatory of Belgium, Brussels, Belgium, May 5, 2004.		SPANN, J.F.	SD50
		DEVERAPALLI, C.	UAH
GALLAGHER, D.L.	SD50	HUNG, C.-C.	Southern Polytechnic State University
ADRIAN, M.L.	SD50	The Utility of Auroral Image-Based Activity Metrics—Abstract Only. For presentation at and publication in <i>Proceedings of the Fall AGU Meeting</i> , San Francisco, CA, December 12–17, 2004.	
LIEMOHN, M.W.	SD50		
The Origin and Evolution of Deep Plasmaspheric Notches—Abstract Only. For presentation at the Inner Magnetosphere Interactions Workshop, Yosemite, CA, February 2–7, 2004, and presentation at and publication in <i>Proceedings of the Fall AGU 2004 Meeting</i> , San Francisco, CA, December 13–17, 2004.		GEVEDEN, R.D.	DD01
		An Overview of the Gravity Probe B Mission—Final Paper. For presentation at the 42nd AIAA Aerospace Sciences Meeting and Exhibit, Reno, NV, January 5–8, 2004.	
GALLAGHER, D.L.	SD50		
KHAZANOV, G.V.	SD50	GILLIES, D.C.	SD40
Unresolved Issues With Inner Magnetosphere-Ionosphere Coupling—Abstract Only. For presentation at the Outer Radiation Belt Injection, Transport, Acceleration, and Loss Satellite (ORBITALS) Workshop, Banff, Alberta, Canada, September 23–24, 2004.		Microanalytical Efforts in Support of NASA's Materials Science Programs—Abstract Only. For presentation at the Microscopy and Microanalysis 2004 Conference, Savannah, GA, August 1–5, 2004.	
GARBE, G.	TD05	GILLIES, D.C.	SD40
MONTGOMERY IV, E.E.	TD05	ENGEL, H.P.	SD40
HEATON, A.F.	TD05	CARPENTER, P.K.	SD40
VAN SANT, J.T.	GSFC	Computed Tomography and its Application for the 3D Characterization of Coarse Gained Meteorites—Abstract Only. For presentation at the Microscopy and Microanalysis 2004 Conference, Savannah, GA, August 1–5, 2004.	
CAMPBELL, B.A.	GSFC		
NASA's Integrated Development of Solar Sail Propulsion Project—Final Paper. For presentation at the AIAA/AAS Space Flight Dynamics Meeting, Maui, HI, February 10, 2004.		GOGUS, E.	SD50
		FINGER, M.H.	SD50
GARCIA, R.	TD64	KOUVELIOTOU, C.	SD50
GRIFFIN, L.	TD64	WOODS, P.M.	SD50

MSFC ABSTRACTS, ARTICLES, PAPERS, AND PRESENTATIONS CLEARED FOR DISSEMINATION

(Publicly available. Dates are conference dates.)

PATEL, S.K.	SD50	tion at and publication in Proceedings of the 18th International Lightning Detection Conference, Helsinki, Finland, June 7–9, 2004.	
RUPEN, M.	SD50		
SWANK, J.H.	SD50		
MARKWARDT, C.B.	SD50		
VANDERKLIS, M.	SD50	GOODMAN, S.J.	SD60
Long-Term Spectral and Timing Behavior of Black Hole Candidate XTE J1908+094—Abstract Only. For publication in The Astrophysical Journal, 2003.		BLAKESLEE, R.J.	SD60
		CHRISTIAN, H.	SD60

COMARAZAMY, D.E.	SD60	JEDLOVEC, G.J.	SD60
PICON, A.	SD60	Improving the Transition of Earth Satellite Observations From Research to Operations—Abstract Only. For presentation at and publication in Proceedings of the AIAA Space 2004 Conference, San Diego, CA, September 30, 2004.	
Analysis of Upper Air, Ground and Remote Sensing Data for the ATLAS Field Campaign in San Juan, Puerto Rico—Abstract Only. For presentation at and publication in Proceedings of the 85th AMS Annual Meeting, San Diego, CA, January 9–13, 2005, and publication in Remote Sensing of Environment, 2004.			
GOODMAN, D.D.	TD62	GORTI, S.	SD46
Solid Edge's Role and Modeling Techniques for Space Shuttle Flowliner Crack Investigation and Related Components—Presentation. For presentation at the Solid Edge Summit 2004, Orlando, FL, May 31–June 4, 2004.		FORSYTHE, E.L.	BAE Systems
		PUSEY, M.L.	SD46
		Kinetic Roughening Transition and Energetics of Tetragonal Lysozyme Crystal Growth—Abstract Only. For presentation at the 10th International Conference on the Crystallization of Biological Macromolecules (ICCBM10), Beijing, China, June 5–8, 2004.	
GOODMAN, H.M.	SD60	GORTI, S.	SD46
REGNER, K.	UAH	FORSYTHE, E.L.	BAE Systems/SD46
CONOVER, H.	UAH	PUSEY, M.L.	SD46
ASHCROFT, P.	Remote Sensing Systems	Growth Modes and Energetics of 101 Face Lysozyme Crystal Growth—Abstract Only. For publication in Crystal Growth and Design, 2004.	
WENTZ, F.	Remote Sensing Systems		
CONWAY, D.	UAH		
LOBL, E.	UAH		
BEAUMONT, B.	UAH	GORTI, S.	SD46
HAWKINS, L.	UAH	KONNERT, J.	Naval Research Laboratory
JONES, S.	UAH	FORSYTHE, E.L.	BAE Systems/SD46
Science Data Processing for the Advanced Microwave Scanning Radiometer—Earth Observing System—Abstract Only. For presentation at the SPIE Optical Science and Technology 49th Annual Meeting, Denver, CO, August 2–6, 2004.		PUSEY, M.L.	SD46
		Effects of Kinetic Roughening and Liquid-Liquid Phase Transition on Lysozyme Crystal Growth Velocities—Abstract Only. For publication in Crystal Growth and Design, 2004.	
GOODMAN, S.J.	SD60	GOSTOWSKI, R.	TD40
The LATEST Project: Operational Assessment of Total Lightning Data in the U.S.—Abstract Only. For presenta-		Isothermal Calorimetric Observations of the Effect of Welding on Compatibility of Stainless Steels With High-Test	

- Hydrogen Peroxide Propellant—Final Paper. For presentation at the JANNAF 39th Combustion Meeting, Colorado Springs, CO, December 1–5, 2003.
- GOSTOWSKI, R. TD40
Isothermal Microcalorimetric Evaluation of Compatibility of Proposed Injector Materials With High-Test Hydrogen Peroxide Propellant—Final Paper. For publication in the *Journal of Propulsion and Power*, 2003.
- GREGG, M.W. ED22
NASA Fracture Panel 2004: Post-Proof NDE—Presentation. For presentation at the Southwest Research Institute, San Antonio, TX, June 1–4, 2004.
- GREGG, M.W. ED22
NASA Fracture Panel 2004: Fasteners—Presentation. For presentation at the Southwest Research Institute, San Antonio, TX, June 1–4, 2004.
- GREGORY, D.A. UAH
HERREN, K.A. SD70
Specific Impulse Definition for Ablative Laser Propulsion—Abstract Only. For presentation at the Third International Symposium on Beamed Energy Propulsion, Troy, NY, October 11–13, 2004.
- GREINER, J.C. Max Planck Institute
KLOSE, S. Thuringer Landesstern.
REINSCH, K. Universitäts-Sternwarte
SCHMID, H.M. Institut für Astronomie
SARI, R. California Institute of Technology
HARTMANN, D.H. Clemson University
KOUVELIOTOU, C. SD50
RAU, A. Max Planck Institute
PALAZZI, E. Istituto di Astrofisica

Polarization Evolution of the Afterglow of GRB 030329—Abstract Only. For publication in *Nature*, 2003.
- GRUGEL, R.N. SD46
Pore Formation and Mobility Investigation (PFMI): Concept, Hardware Development, and Initial Analysis of Experiments Conducted Aboard the *International Space Station*—Abstract Only. For presentation at the University of Texas, Austin, TX, October 7, 2003.
- GRUGEL, R.N. SD46
Pore Formation and Mobility Investigation (PFMI): Concept, Hardware Development, and Initial Analysis of Experiments—Abstract Only. For presentation at an Invited Talk to the European Space Agency, Paris, France, April 4–11, 2004.
- GRUGEL, R.N. SD46
Materials Processing in Space: Model Experiments Aboard the *International Space Station*—Abstract Only. For presentation at an Invited Talk, Vanderbilt University, Nashville, TN, April 19, 2004.
- GRUGEL, R.N. SD46
ANILKUMAR, A.V. SD46
LEE, C.P. SD46
Direct Observation of Pore Formation and Bubble Mobility During Controlled Melting and Resolidification in Microgravity—Abstract Only. For presentation at and publication in *Proceedings of the Minerals Metals & Materials Society (TMS) Annual Meeting*, Charlotte, NC, March 14–18, 2004.
- GRUGEL, R.N. SD46
LUZ, P. SD46
SMITH, A. SD46
SPIVEY, R. SD46
SEN, S. SD46
ANIKUMAR, A.V. SD46
The Pore Formation and Mobility Investigation: The Apparatus, Operations, Science Obtained, and Potential for Continued Usage—Abstract Only. For presentation at the Institute of Electrical and Electronics Engineers—Lasers and Electro-Optics Society Meeting, San Diego, CA, June 28–30, 2004.
- GUBAREV, M. SD50
O'DELL, S.L. SD50
KESTER, T. SD50
LEHNER, D. SD50
JONES, W. SD50
SMITHERS, M. SD50
Incoming Metrology of Segmented X-Ray Mandrels at MSFC—Abstract Only. For presentation at SPIE Astronomical Telescopes & Instrumentation, Glasgow, Scotland, June 21–25, 2004.
- GUBAREV, M. SD50
RAMSEY, B.D. SD50
APPLE, J. SD50
Performance of Gas Scintillation Proportional Counter Array for High-Energy X-Ray Observatory—Abstract Only. For presentation at SPIE Astronomical Telescopes & Instrumentation, Glasgow, Scotland, June 21–25, 2004.
- GUILLORY, A.R. SD60
NASA Earth Science Research and Applications Using UAV's—Abstract Only. For presentation at the Technical Analysis and Applications Center 2003 UAV Conference, Albuquerque, NM, October 28–30, 2003.

MSFC ABSTRACTS, ARTICLES, PAPERS, AND PRESENTATIONS CLEARED FOR DISSEMINATION
(Publicly available. Dates are conference dates.)

HADAWAY, J.	UAH	HATHAWAY, D.H.	SD50
STAHL, P.	SD72	Recent Progress in Understanding the Sun's Magnetic	
ENG, R.	SD72	Dynamo—Abstract Only. For presentation at Vanderbilt	
HOGUE, W.	SD72	University—Public Lecture, Nashville, TN, April 8,	
Cryogenic Test Results of Hextek Mirror—Abstract Only.		2004.	
For presentation at the Mirror Technology Days 2004,			
Huntsville, AL, August 17–19, 2004.			
HAINES, S.L.	SD60	HATHAWAY, D.H.	SD50
JEDLOVEC, G.J.	SD60	Modern Solar Mysteries—Abstract Only. For presentation	
LAFONTAINE, F.J.	SD60	at Vanderbilt University—Public Lecture, Nashville, TN,	
Spatially Varying Spectrally Thresholds for MODIS Cloud		April 8, 2004.	
Detection—Abstract Only. For presentation at the 13th			
Conference on Satellite Meteorology and Oceanography,			
Norfolk, VA, September 20–24, 2004.			
HALE, J.	TD32	HATHAWAY, D.H.	SD50
Simulation Based Acquisition for NASA's Office of		What the Long-Term Sunspot Record Tells Us About Space	
Exploration Systems—Abstract Only. For presentation		Climate—Abstract Only. For presentation at the First	
at the Huntsville Simulation Conference, Huntsville, AL,		International Symposium on Space Weather, Oulu, Finland,	
October 19–21, 2004.		June 20–23, 2004.	
HAMILTON, G.S.	ED42	HATHAWAY, D.H.	SD50
DUMAS II, J.D.	University of Tennessee	Flows in the Solar Convection Zone—Abstract Only. For	
BROOKMAN, S.	University of Maryland	presentation at the 35th COSPAR Scientific Assembly, Paris,	
TILGHMAN, N.	QTEC	France, July 18–25, 2004.	
Evaluating the Usability of Pinchigator, A System for Navi-			
gating Virtual Worlds Using Pinch Gloves—Abstract Only.			
For presentation at the Huntsville Simulation Conference,			
Huntsville, AL, October 29–31, 2003.			
HANSON, J.M.	TD54	HATHAWAY, D.H.	SD50
HALL, C.E.	TD54	CHOUDHARY, D.P.	SD50
MULQUEEN, J.A.	TD54	Supergranule Diffusion and Active Region Decay—Abstract	
JONES, R.E.	TD54	Only. For publication in the Bulletin of the 204th Meeting of	
Advanced Guidance and Control for Hypersonics and Space		the American Astronomical Society, Denver, CO, May 30–	
Access—Final Paper. For presentation at the JANNAF		June 3, 2004.	
Interagency Propulsion Committee Joint Meeting, Colorado			
Springs, CO, December 1–5, 2003.			
HANSON, J.M.	TD54	HATHAWAY, D.H.	SD50
JONES, R.E.	Sverdrup Technology	MEYER, P.J.	SD50
Test Results for Entry Guidance Methods for Reusable		TEMPLETON, G.	SD50
Launch Vehicles—Final Paper. For presentation at the 42nd		The VISAR Process—Final Paper. For publication in Com-	
AIAA Aerospace Sciences Meeting and Exhibit, Reno, NV,		munication of the ACM, 2003.	
January 5–8, 2004.			
HANSON, J.M.	TD54	HATHAWAY, D.H.	SD50
JONES, R.E.	TD54	NANDY, D.	Montana State University
Test Results for Entry Guidance Methods for Space		WILSON, R.M.	SD50
Vehicles—Final Paper. For publication in the AIAA Journal		REICHMANN, E.J.	SD50
of Guidance, Control, and Dynamics, 2004.		Erratum: "Evidence that a Deep Meridional Flow Sets the	
		Sunspot Cycle Period—Abstract Only. For publication in	
		The Astrophysical Journal, 2003.	
		HATHAWAY, D.H.	SD50
		WILSON, R.M.	SD50

MSFC ABSTRACTS, ARTICLES, PAPERS, AND PRESENTATIONS CLEARED FOR DISSEMINATION
(Publicly available. Dates are conference dates.)

What the Sunspot Record Tells Us About Space Climate—Abstract Only. For publication in the Solar Physics Journal, 2004.	HERREN, K.A.	SD71
	LIN, J.	UAH
	COHEN, T.	UAH
	PAKHOMOV, A.V.	UAH
HEATON, A.F.	THOMPSON, M.S.	Information Systems, Inc.
Solar Sail GN&C Model Comparisons—Final Paper. For presentation at the AIAA GN&C Conference, Providence, RI, August 16–19, 2004.		Status of the Ablative Laser Propulsion Studies—Abstract Only. For presentation at the 15th Advanced Space Propulsion Workshop, Pasadena, CA, June 15–17, 2004.
HEFNER, K.	HOLLADAY, J.B.	FD24
DAVIDSON, G.	DAY, G.	Boeing
Performance as Promised: How the Chandra X-Ray Observatory Accomplished One of NASA's Most Challenging Missions for Billions of Dollars Less Than Originally Planned—Final Paper. For presentation at the AIAA Space 2004 Conference, San Diego, CA, September 28–30, 2004.	GILL, L.	Carleton Technologies
		Guidelines for Developing Spacecraft Structural Requirements; A Thermal and Environmental Perspective—Final Paper. For presentation at the 34th International Conference on Environmental Systems, Colorado Springs, CO, July 19–22, 2004.
HENDERSON, S.J.	HOLLADAY, J.B.	FD24
	REAGAN, S.E.	FD24
HAMILTON, G.S.	DAY, G.	Boeing
Human Motion Tracking at Marshall Space Flight Center's Collaborative Engineering Center ANVIL—Abstract Only. For presentation at the Huntsville Simulation Conference, Huntsville, AL, October 19–21, 2004.		Solid-State Distributed Temperature Control for <i>International Space Station</i> —Final Paper. For presentation at the 34th International Conference on Environmental Systems, Colorado Springs, CO, July 19–22, 2004.
HENLEY, M.W.	HOLLERMAN, W.	University of Louisiana
	ALBARDO, T.	University of Louisiana
HOWELL, J.T.	LENTZ, M.	University of Louisiana
Space Solar Power Technology for Lunar Polar Applications—Presentation. For presentation at the International Workshop on the Laser Energy Transmission for Space Exploration and Ground Applications, Nara, Japan, June 6–7, 2004.	EDWARDS, D.L.	ED31
	HUBBS, W.S.	ED31
	SEMMELE, C.L.	Qualis Corporation
		Ionizing Radiation Exposure Measurements for Candidate Solar Sails—Final Paper. For presentation at the Joint Propulsion Conference, Huntsville, AL, July 21–23, 2003.
HEREFORD, J.	HOLT, J.M.	ED25
GWALTNEY, D.	CLANTON, S.E.	Jacobs Sverdrup
Design Space Issues for Intrinsic Evolvable Hardware—Abstract Only. For presentation at the 2004 NASA/DoD Conference on Evolvable Hardware, Seattle, WA, June 24–26, 2004.		Case Study of Risk Mitigation Based on Hardware/Software Integration (HSI) Testing for the <i>International Space Station (ISS)</i> Node 2 Module—Abstract Only. For presentation at the French Aviation & Space Association Complex and Safe Systems Engineering Conference, Paris, France, June 21–22, 2004.
HEREFORD, J.	HONG, Y.-S.	SD46/BAE Systems
GWALTNEY, D.	ADAMEK, D.H.	SD46/AZ Technology
Scalability, Timing, and System Design Issues for Intrinsic Evolvable Hardware—Final Paper. For publication in Genetic Programming and Evolvable Machines, 2004.	BRIDGE, K.	SD46/UAH
	MALONE, C.C.	SD46/BAE Systems
HERREN, K.A.	YOUNG, R.B.	BAE Systems/UAH
COHEN, T.	MILLER, T.	SD46
LIN, J.	KARR, L.	SD46
PAKHOMOV, A.V.		
Two-Pulsed Technique for Ablative Laser Propulsion: Force Measurement in Vacuum—Abstract Only. For presentation at the Third International Symposium on Beamed Energy Propulsion, Troy, NY, October 11–13, 2004.		

MSFC ABSTRACTS, ARTICLES, PAPERS, AND PRESENTATIONS CLEARED FOR DISSEMINATION
(Publicly available. Dates are conference dates.)

Purification and Crystallization of Murine Myostatin a Negative Regulator of Muscle Mass—Abstract Only. For presentation at the American Society for Biochemistry & Molecular Biology, Boston, MA, June 12–16, 2004.

HOOD, R.E. SD60
BLAKESLEE, R.J. SD60
CECIL, D.J. UAH
LAFONTAINE, F.J. Raytheon ITSS
HEYSFIELD, G. Goddard Space Flight Center
MARKS, F. NOAA Hurricane Research Division
Tropical Cyclone Precipitation Types and Electrical Field Information Observed by High Altitude Aircraft Instrumentation—Abstract Only. For presentation at the 26th AMS Conference on Hurricanes & Tropical Meteorology, Miami, FL, May 3–7, 2004.

HOOD, R.E. SD60
KAKAR, R. NASA Headquarters
Early Results of the NASA Convection and Moisture Experiment (CAMEX)—Abstract Only. For presentation at the 58th Interdepartmental Hurricane Conference, Charleston, SC, February 29–March 5, 2004.

HOOVER, R.B. SD50
PIKUTA, E.V. SD50
A Case for Microorganisms on Comets, Europa and the Polar Ice Caps of Mars—Abstract Only. For presentation at and publication in Proceedings of the SPIE Optical Science and Technology 48th Annual Meeting, San Diego, CA, August 3–8, 2003.

HOOVER, R.B. SD50
PIKUTA, E.V. SD50
WICKRAMASINGHE, N.C. Cardiff Center
WALLIS, M.K. Cardiff Center
Astrobiology of Comets—Abstract Only. For presentation at and publication in Proceedings of the SPIE Optical Science and Technology 49th Annual Meeting, Denver, CO, August 2–6, 2004.

HOOVER, R.B. SD50
ROZANOV, A.Y. Paleontological Institute
New Evidence for the Presence of Indigenous Microfossils in Carbonaceous Chondrites—Abstract Only. For presentation at and publication in Proceedings of the International Society for Optical Science and Technology 49th Annual Meeting, Vol. 5555, Denver, CO, August 2–6, 2004.

HOOVER, R.B. SD50
ROZANOV, A.Y. Paleontological Institute
JERMAN, G. ED21
COSTEN, J. ED21

Microfossils in C1 and CO Carbonaceous Meteorites—Abstract Only. For presentation at and publication in Proceedings of SPIE—The International Society for Optical Science and Technology 48th Annual Meeting, Vol. 5163, San Diego, CA, August 3–8, 2003.

HOUSTON, J. Jacobs Sverdrup
GATTIS, C.B. ED21
Passive Isolators for Use on the *International Space Station*—Final Paper. For presentation at the 42nd AIAA Aerospace Sciences Meeting and Exhibit, Reno, NV, January 5–8, 2004.

HOWARD, R.T. ED19
JOHNSTON, A.S. ED19
BRYAN, T.C. ED19
BOOK, M.L. ED19
Advanced Video Guidance Sensor (AVGS) Development Testing—Final Paper. For presentation at the SPIE Defense and Security Symposium, Orlando, FL, April 12–16, 2004.

HOWELL, J.T. FD02
MANKINS, J.C. NASA Headquarters
Transformational System Concepts and Technologies for Our Future in Space—Abstract Only. For presentation at the 55th International Astronautical Congress, Vancouver, British Columbia, Canada, October 4–8, 2004.

HOWELL, J.T. FD02
O'NEILL, M. Entech, Inc.
FORK, R. UAH
Advanced Receiver/Converter Experiments for Laser Wireless Power Transmission—Abstract Only. For presentation at the Fourth International Conference on Solar Power From Space, Granada, Spain, June 30–July 2, 2004.

HOWSMAN, T.G. Dynamic Concepts
O'NEIL, D.A. FD02
CRAFT, M.A. Dynamic Concepts
A Stigmergic Cooperative Multi-Robot Control Architecture—Final Paper. For presentation at the Ninth International Conference on the Simulation and Synthesis of Living Systems, Boston, MA, September 12–15, 2004.

HU, Z.W. SD46
HOLMES, A. SD46
THOMAS, B.R. SD46
CHERNOV, A.A. SD46
CHU, Y.S. Argonne National Laboratory
LAI, B. Argonne National Laboratory
X-Ray Microscopic Characterization of Protein Crystals—Abstract Only. For presentation at the 10th International

MSFC ABSTRACTS, ARTICLES, PAPERS, AND PRESENTATIONS CLEARED FOR DISSEMINATION
(Publicly available. Dates are conference dates.)

- Conference on the Crystallization of Biological Macromolecules, Beijing, China, June 5–8, 2004.
- HULCHER, A.B. ED34
Film Processing Module for Automated Fiber Placement—Presentation. For presentation at the SAMPE Conference, NASA Technical Briefings Session, Long Beach, CA, May 19, 2004.
- HULCHER, A.B. ED34
Automated Composites Processing Technology: Film Module—Abstract Only. For publication in the AIAA Aerospace America Magazine, 2004.
- HUTCHENS, C. FD21
GRAVES, R. Allied
Results of the Vapor Compression Distillation Flight Experiment (VCD-FE)—Abstract Only. For presentation at the 34th International Conference on Environmental Systems, Colorado Springs, CO, July 19–22, 2004.
- HYERS, R.W. University of Massachusetts
BRADSHAW, R.C. University of Massachusetts
ROGERS, J.R. SD46
RATHZ, T.J. UAH
LEE, G.W. Washington University
GANGOPADHYAY, A.K. Washington University
KELTON, K.F. Washington University
Containerless Measurement of Thermophysical Properties of Ti-Zr-Ni Alloys—Abstract Only. For presentation at the Minerals, Metals, & Materials Society (TMS) Annual Meeting, Charlotte, NC, March 14–18, 2004.
- HYERS, R.W. University of Massachusetts
BRADSHAW, R.C. University of Massachusetts
ROGERS, J.R. SD46
RATHZ, T.J. UAH
LEE, G.W. Washington University
KELTON, K.F. Washington University
GANGOPADHYAY, A.K. Washington University
Surface Tension and Viscosity of Quasicrystal-Forming Ti-Zr-Ni Alloys—Abstract Only. For publication in the International Journal of Thermophysics, 2003.
- HYERS, R.W. SD46
MATSON, D.M. SD46
KELTON, K.F. SD46
ROGERS, J.R. SD46
Control of Convection in Containerless Processing—Abstract Only. For presentation at The Minerals, Metals, & Materials Society (TMS) Annual Meeting, Charlotte, NC, March 14–18, 2004.
- IRWIN, D.E. SD60
Land Use and Change—Abstract Only. For presentation at the Mesoamerican Environmental Information System—NASA Monitoring and Visualization System (SIAM-SERVIR) Workshop, Panama City, Panama, July 10–17, 2004, and August 16–20, 2004.
- IRWIN, D.E. SD60
SEVER, T.L. SD60
GRAVES, S. UAH
HARDIN, D. UAH
SIAM-SERVIR: An Environmental Monitoring and Decision Support System for Mesoamerica—Abstract Only. For presentation at and publication in Proceedings of the Monitoring Science and Technology Symposium, Denver, CO, September 20–24, 2004.
- JAAP, J. FD42
DAVIS, E. FD42
An Enabling Technology for New Planning and Scheduling Paradigms—Final Paper and Presentation. For presentation at the SpaceOps 2004, Montreal, Quebec, Canada, May 17–21, 2004.
- JAAP, J. FD42
DAVIS, E. FD42
RICHARDSON, L. FD42
Maximally Expressive Modeling—Final Paper. For presentation at the Fourth International Workshop on Planning and Scheduling for Space, Darmstadt, Germany, June 23–25, 2004.
- JAAP, J. FD42
MAXWELL, T. FD42
Enabling New Operations Concepts for Lunar and Mars Exploration—Abstract Only. For presentation at the Space Technology and Applications International Forum, Albuquerque, NM, February 13–17, 2004.
- JACOBSON, D. XP01
X-37 Flight Demonstrator—A Building Block in NASA's Future Access to Space—Presentation. For presentation at the Space Technology and Information International Technology Forum, Albuquerque, NM, February 11, 2004.
- JACOBSON, D. XP01
X-37 Flight Demonstrator—Orbital Vehicle Technology Development Approach—Presentation. For presentation at the Space Technology and Information International Technology Forum, Albuquerque, NM, February 11, 2004.
- JEDLOVEC, G.J. SD60
Use of MODIS/AIRS Direct Broadcast Data for Short Term Weather Forecasting—Abstract Only. For presentation at the

MSFC ABSTRACTS, ARTICLES, PAPERS, AND PRESENTATIONS CLEARED FOR DISSEMINATION
(Publicly available. Dates are conference dates.)

EOS Direct Broadcast Users Conference in Hohala Coast, HI, November 17–20, 2003.		HAINES, S.L.	SD60
JEDLOVEC, G.J.	SD60	Application of Satellite-Derived Land Surface Temperature to Minimum Temperature Forecasting—Abstract Only. For presentation at the 13th Conference on Satellite Meteorology and Oceanography, Norfolk, VA, September 20–24, 2004.	
HAINES, S.	UAH	JUDGE, R.A.	SD40
SUGGS, R.J.	SD60	SNELL, E.H.	BAE Systems/SD40
BRADSHAW, T.	NWS Forecast Office	KEPHART, R.	SD40
BURKS, J.	NWS Forecast Office	VAN DER WOERD, M.J.	BAE Systems/SD40
MODIS Data in AWIPS: A Precursor of NPOESS and GOES-R Capabilities—Abstract Only. For presentation at the National Weather Association Annual Meeting, Portland, OR, October 16–21, 2004.		Decades of Data: Extracting Trends From Microgravity Crystallization History—Abstract Only. For presentation at the Symposium on Neutron Protein Crystallography, Tokyo, Japan, February 14–20, 2004.	
JOHNSON, D.L.	ED44	JUSTUS, C.G.	Computer Sciences Corporation
VAUGHAN, W.W.	UAH	DUVALL, A.L.	Computer Sciences Corporation
Terrestrial Environment (Climatic) Criteria Handbook for Use in Aerospace Vehicle Development—Final Paper. For presentation at the 11th AMS Conference on Aviation, Range, and Aerospace Meteorology, Hyannis, MA, October 4–8, 2004.		KELLER, V.W.	ED44
JOHNSON, D.L.	ED44	Connecting Atmospheric Science and Atmospheric Models for Aerocaptured Missions to Titan and The Outer Planets—Abstract Only. For presentation at the International Conference, European Geosciences Union 1st General Assembly, Nice, France, April 25–30, 2004.	
VAUGHAN, W.W.	UAH	JUSTUS, C.G.	Morgan Research Corporation/ED44
KELLER, V.W.	ED44	DUVALL, A.L.	Morgan Research Corporation/ED44
Status on Updated NASA Standard—“Terrestrial Environment (Climatic) Criteria Handbook for Use in Aerospace Vehicle Development”—Final Paper. For presentation at the 42nd AIAA Aerospace Sciences Meeting and Exhibit, Reno, NV, January 5–8, 2004.		KELLER, V.W.	ED44
JOHNSON, L.	TD05	Atmospheric Models for Aerocapture—Abstract/Final Paper. For presentation at the 40th AIAA/ASME/SAE/ASEE Joint Propulsion Conference, Fort Lauderdale, FL, July 12–16, 2004.	
ALEXANDER, L.A.	TD05	JUSTUS, C.G.	Morgan Research Corporation/ED44
BAGGETT, R.M.	TD05	DUVALL, A.L.	Morgan Research Corporation/ED44
BONOMETTI, J.A.	TD05	KELLER, V.W.	ED44
HERRMANN, M.	TD05	Validation of Mars-Gram and Planned New Features—Final Paper. For presentation at the 35th COSPAR Scientific Assembly, Paris, France, July 18–25, 2004.	
JAMES, B.F.	TD05	JUSTUS, C.G.	Morgan Research Corporation/ED44
MONTGOMERY, S.E.	TD05	DUVALL, A.L.	Morgan Research Corporation/ED44
NASA's In-Space Propulsion Technology Program: Overview and Status—Final Paper. For presentation at the 52nd JANNAF Meeting/1st Liquid Propulsion & Subcommittee Meeting, Las Vegas, NV, May 10–13, 2004, and for presentation at the 40th AIAA/ASME/SAE/ASEE Joint Propulsion Conference and Exhibit, Fort Lauderdale, FL, July 11–14, 2004.		KELLER, V.W.	ED44
JOHNSON, L.	TD05	Earth Gram-99 and Trace Constituents—Final Paper. For presentation at the 35th COSPAR Scientific Assembly, Paris, France, July 18–25, 2004.	
BISHOP-BEHTEL, K.	TD05	JUSTUS, C.G.	Computer Sciences Corporation
In-Space Propulsion for Science & Exploration—Presentation. For presentation at the National Space & Missile Materials Symposium, Seattle, WA, June 21–25, 2004.		DUVALL, A.L.	Computer Sciences Corporation
JONES, P.R.	SD60	KELLER, V.W.	ED44
JEDLOVEC, G.J.	SD60	Atmospheric Models for Aerocapture Systems Studies—Abstract Only. For presentation at the AIAA Atmospheric Flight Mechanics Symposium, Providence, RI, August 16–19, 2004.	
SUGGS, R.J.	SD60		

MSFC ABSTRACTS, ARTICLES, PAPERS, AND PRESENTATIONS CLEARED FOR DISSEMINATION
(Publicly available. Dates are conference dates.)

JUSTUS, C.G.	Morgan Research Corp./ED44	Geophysics Spring Meeting, Montreal, Quebec, Canada,	
DUVALL, A.L.	Morgan Research Corp./ED44	May 17–21, 2004.	
KELLER, V.W.	ED44		
Atmospheric Models for Aeroentry and Aeroassist—Abstract/Final Paper. For presentation at the 2nd International Planetary Probe Workshop, Ames Research Center, CA, August 23–27, 2004.		KHAZANOV, G.V.	SD50
		Ring Current Electrodynamic Coupling—Abstract Only. For presentation at the 35th COSPAR Scientific Assembly, Paris, France, July 18–25, 2004.	
KAKAR, R.	NASA Headquarters	KHAZANOV, G.V.	SD50
GOODMAN, H.M.	SD60	GALLAGHER, D.L.	SD50
HOOD, R.E.	SD60	SPANN, J.F.	SD50
GUILLORY, A.R.	SD60	SINGH, N.	UAH
Overview of the Convection and Moisture Experiment (CAMEX)—Abstract Only. For publication in the Journal of Atmospheric Science, 2004.		Cross-Scale Coupling in the Inner Magnetosphere—Abstract Only. For presentation at the Huntsville 2004 Workshop, Huntsville, AL, October 18–22, 2004.	
KAUFFMAN, B.	ED03	KHAZANOV, G.V.	SD50
HARDAGE, D.	ED03	LIEMOHN, M.W.	University of Michigan
MINOR, J.	ED03	FOK, M.-C.	Goddard Space Flight Center
Space Environments and Effects (SEE) Program: Spacecraft Charging Technology Development Activities—Final Paper and Presentation. For presentation at the 8th Spacecraft Charging Technology Development Conference, Huntsville, AL, October 20–24, 2003.		NEWMAN, T.S.	UAH
		RIDLEY, A.J.	University of Michigan
		Stormtime Particle Energization With High Temporal Resolution AMIE Potentials—Abstract Only. For publication in the Journal of Geophysical Research, 2004.	
KEYS, A.S.	SD50	KHAZANOV, G.V.	SD50
CROW, R.W.	Sensing Strategies, Inc.	SINGH, N.	UAH
ASHLEY, P.R.	U.S. Army Aviation	GAMAYUNOV, K.V.	University of Alaska Fairbanks
NELSON, JR., T.R.	Air Force Laboratory, SNDD	KRIVORUTSKY, E.N.	SD50
PARKER, J.H.	Air Force Laboratory, SNJT	The Role of the Heavy Ions in the Wave Magnetospheric Phenomena—Abstract Only. For presentation at and publication in Proceedings of the American Geophysical Union Fall 2004 Annual Meeting, San Francisco, CA, December 13–17, 2004.	
BEECHER, E.A.	Air Force Laboratory, SNJT		
Fabrication and Testing of Binary-Phase Fourier Gratings for Nonuniform Array Generation—Final Paper. For presentation at the Optical Society of America's Diffractive Optics and Micro-Optics Conference, Rochester, NY, October 9–13, 2004.		KIESSLING, E.	ED01
KHAZANOV, G.V.	SD50	Organizational Considerations in Managing System Safety: A NASA Case Study—Abstract Only. For presentation at the American Society for Engineering Management, Alexandria, VA, October 20–23, 2004.	
The Nonlinear Coupling of Alfvén and Lower Hybrid Waves in Space Plasma—Abstract Only. For presentation at the 2004 National Radio Science Meeting, Boulder, CO, January 4–8, 2004.		KIESSLING, E.	ED01
KHAZANOV, G.V.	SD50	TIPPETT, D.D.	UAH
Large-and Small-Scale Ring Current Electrodynamic Coupling—Abstract Only. For presentation at the 30th Anniversary Yosemite Workshop on Inner Magnetosphere Interaction, Yosemite, CA, February 3–6, 2004.		SHIVERS, H.	ED01
KHAZANOV, G.V.	SD50	Improving Performance of the System Function at Marshall Space Flight Center—Final Paper. For presentation at the American Society for Engineering Management 25th National Conference, Alexandria, VA, October 20–23, 2004.	
The Nonlinear Coupling of Electromagnetic Ion Cyclotron and Lower Hybrid Waves in the Ring Current Region—Abstract Only. For presentation at the 2004 American		KLEIMAN, J.I.	Integrity Testing Laboratory
		GUDIMENKO, Y.	Integrity Testing Laboratory
		ISKANDEROVA, Z.A.	Integrity Testing Lab.
		GRIGOREVSKI, A.	Public Joint Stock Co.

GANGOPADHYAY, A.K. Washington University
KELTON, K.F. Washington University
HYERS, R.W. University of Massachusetts
RATHZ, T.J. UAH
ROGERS, J.R. SD46
Difference in Icosahedral Short-Range Order in Early and
Late Transition Metals Liquids—Abstract Only. For publi-
cation in Physical Review Letters, 2003.
- LEE, J.A. ED33
Commercialization of NASA's High Strength Cast Alumi-
num Alloy for High Temperature Applications—Abstract
and Presentation. For presentation at the 28th Annual
Conference on Composites, Materials & Structures, Cocoa
Beach, FL, January 26–30, 2004.
- LEE, J.A. ED33
High Strength and Compatible Aluminum Alloy for Hydrogen-
Peroxide Fuel Tanks—Abstract Only. For presentation at the
52nd JANNAF Meeting/1st Liquid Propulsion Subcommit-
tee Meeting, Las Vegas, NV, May 10–13, 2004.
- LEE, J.K. UAH
NEWMAN, T.S. UAH
GARY, G.A. SD50
Automated Detection of Solar Loops by the Oriented
Connectivity Method—Final Paper. For presentation at
and publication in Proceedings of the 17th International
Conference on Pattern Recognition, Cambridge, UK,
August 23–26, 2004.
- LEIMKUEHLER, T.O. Honeywell, Inc.
LUKENS, C. Honeywell, Inc.
REEVES, D.R. The Boeing Company
HOLT, J.M. ED25
Recent Operational Experience With the Internal Thermal
Control System Dual-Membrance Gas Trap—Final Paper.
For presentation at the 2004 International Conference on
Environmental Systems (ICES) 24th Annual Meeting,
Colorado Springs, CO, July 19–22, 2004.
- LEIMKUEHLER, T.O. Honeywell, Inc.
LUKENS, C. Honeywell, Inc.
REEVES, D.R. The Boeing Company
HOLT, J.M. ED25
Effects of Surfactant Contamination on the Next Generation
Gas Trap for the ISS Internal Thermal Control System—
Final Paper. For presentation at the 2004 International
Conference on Environmental Systems (ICES), 34th Annual
Meeting, Colorado Springs, CO, July 19–22, 2004.

Meteoroid Engineering Model (MEM): A Meteoroid Model for the Inner Solar System—Abstract Only. For presentation at the Meteoroids Conference 2004, London, Ontario, Canada, August 16–20, 2004.
- MCNEAL, JR., C.I. TD07
Bantam: A Cautionary Tale—Presentation. For presentation at the Space 2004 Conference and Exposition, San Diego, CA, September 28–30, 2004.
- MCNEAL, JR., C.I. TD07
A Decade of X-Vehicles: Lessons Learned—Presentation. For presentation at Space 2004 Conference and Exposition, San Diego, CA, September 28–30, 2004.
- MEEGAN, C.A. SD50
The GLAST Burst Monitor—Abstract Only. For presentation at the American Physical Society, Denver, CO, May 1–4, 2004.
- MEINHOLD, A. MP71
Shuttle Environmental Assurance (SEA) Initiative—Presentation. For presentation at the U.S. Army Materials Command Environmental Office, Madison, AL, June 2–3, 2004.
- MINAMITANI, E.F. BAE Systems
PUSEY, M.L. SD46
Flourescent Approaches to High Throughput Crystallography—Abstract Only. For presentation at the 10th International Conference on the Crystallization of Biological Macromolecules, Beijing, China, June 5–8, 2004.
- MINAMITANI, E.F. BAE Systems
PUSEY, M.L. SD46
Solution-Phase Processes of Macromolecular Crystallization—Abstract Only. For presentation at the 10th International Conference on the Crystallization of Biological Macromolecules, Beijing, China, June 5–8, 2004.
- MINOW, J.I. ED44
ALSTATT, R.L. Jacobs Sverdrup/ED44
NEERGAARD, L.F. Jacobs Sverdrup/ED44
Interplanetary Radiation and Internal Charging Environment Models for Solar Sails—Abstract Only. For presentation at the Solar Sail Technology and Applications Conference, Greenbelt, MD, September 28–29, 2004.
- MITCHELL, D.W. XP01
X-37 Flight Demonstrator—X-40A Flight Test Approach—Presentation. For presentation at the Space Technology and Applications International Forum, Albuquerque, NM, February 11, 2004.
- MONACO, L. SD46
Lab on a Chip Application Development for Exploration—Abstract Only. For presentation at the Mars Astrobiology Science and Technology Workshop, Washington, DC, September 8–10, 2004.

MSFC ABSTRACTS, ARTICLES, PAPERS, AND PRESENTATIONS CLEARED FOR DISSEMINATION
(Publicly available. Dates are conference dates.)

MONTGOMERY IV, E.E.	TD05	Meeting and Exhibit, Reno, NV, January 5–8, 2004, and for publication in the Journal of Propulsion and Power, 2004.
JOHNSON, L.	TD05	
The Development of Solar Sail Propulsion for NASA Science Missions to the Inner Solar System—Final Paper. For presentation at the 45th AIAA/ASME/ASCE/AHS/ASC Structures, Structural Dynamics and Materials Conference, 5th AIAA Gossamer Spacecraft Forums, Palm Springs, CA, April 19–24, 2004.		
		NALL, M.E. SD10
Meeting NASA’s Mission Through Commercial Partnerships—Abstract Only. For presentation at the 42nd AIAA Aerospace Sciences Meeting and Exhibit, Reno, NV, January 4–8, 2004.		
MONTGOMERY IV, E.E.	TD05	NALL, M.E. SD10
JOHNSON, L.	TD05	CASAS, J. SD10
Development of Solar Sail Propulsion for Inner Solar System NASA Science Missions—Final Paper. For presentation at the 40th AIAA/ASME/SAE/ASEE Joint Propulsion Conference and Exhibit, Fort Lauderdale, FL, July 11–14, 2004.		
		Accelerating Exploration Through the Sharing of Best Practices in Research Partnerships—Abstract Only. For presentation at the 24th International Symposium on Space Technology and Science, Miyazaki, Japan, May 30–June 6, 2004.
MOORE, R.L.	SD50	NALL, M.E. SD10
FALCONER, D.A.	UAH	CASAS, J. SD10
PORTER, J.G.	SD50	Space Exploration Technologies Developed Through Existing and New Research Partnerships Initiatives—Abstract Only. For presentation at the 55th International Astronautical Congress, Vancouver, British Columbia, Canada, October 4–8, 2004.
HATHAWAY, D.H.	SD50	
YAMAUCHI, Y.	SD50	
Coronal Heating, Spicules, and Solar-B—Abstract Only. For presentation at and publication in Proceedings of the Fifth Solar-B Science Meeting, Tokyo, Japan, November 14, 2003.		
MOORE, R.L.	SD50	NEERGAARD, L.F. Jacobs Sverdrup/ED44
FALCONER, D.A.	SD50	DAVIS, V.A. SAIC
STERLING, A.C.	SD50	GARDNER, B. SAIC
Main-Sequence CME’s as Magnetic Explosions: Compatibility With Observed Kinematics—Abstract Only. For presentation at the 2004 Shine Workshop, Big Sky, MT, June 26–July 2, 2004.		
		MANDELL, M. SAIC
		MINOW, J.I. ED44
		Analysis of Surface Charging for a Candidate Solar Sail Mission Using Nascap-2k—Abstract Only. For presentation at the Solar Sail Technology and Applications Conference, Greenbelt, MD, September 28–29, 2004.
MOORE, R.L.	SD50	NESTEROV, V.V. New Mexico Highlands University
STERLING, A.C.	SD50	ANTIPIN, M.Y. New Mexico Highlands University
Compact Flares and CMEs—Abstract Only. For presentation at the RHESSI/SOHO/TRACE Workshop: Coordinated Observations of Flares and CME’s, Sonoma, CA, December 8–11, 2004.		
		NESTEROV, V.N. New Mexico Highlands University
		MOORE, C.E. SD46
		CARDELINO, B.H. Spellman College
MOORE, R.L.	SD50	TIMOFEEVA, T.V. New Mexico Highlands University
YAMAUCHO, Y.	NJIT	Thermally Stable Heterocyclic Imines as New Potential Nonlinear Optical Materials—Abstract Only. For publication in the Journal of Physical Chemistry B, 2004.
Solar Magnetic Explosions, Spicules, and the Heliosphere—Abstract Only. For presentation at and publication in Proceedings of the 2004 Conference of the American Astronomical Society/Solar Physics Division, Denver, CO, May 30–June 3, 2004.		
		NETTLES, A.T. ED34
Allowables for Structural Composites—Abstract Only. For presentation at the International Conference on Composite Engineering, Hilton Head, SC, August 8–14, 2004.		
MORRIS, C.I.	TD40	NEVALAINEN, J. SD50
Numerical Modeling of Pulse Detonation Rocket Engine Gasdynamics and Performance—Final Paper and Presentation. For presentation at the 42nd AIAA Aerospace Sciences		
		OOSTERBROEK, T. SD50
		BONAMENTE, M. SD50
		COLAFRANCESCO, S. SD50

MSFC ABSTRACTS, ARTICLES, PAPERS, AND PRESENTATIONS CLEARED FOR DISSEMINATION
(Publicly available. Dates are conference dates.)

Non-Thermal Hard X-Ray Emission in Galaxy Clusters Observed With the BeppoSAX PDS—Abstract Only. For publication in The Astrophysical Journal, 2003.		NICHOLS, K.F. SCHNEIDER, L. BEST, S.	FD41 COLSA Corporation FD41
NEWCHURCH, M.J.	UAH	Making Wireless Networks Secure for NASA Mission Critical Applications Using Virtual Private Network (VPN) Technology—Abstract Only. For presentation at the 55th International Astronautical Congress, Vancouver, CA, Octo- ber 4–8, 2004.

CHRISTL, M.J.	SD50	Potential Application of Anaerobic Extremophiles for Hydrogen Production—Abstract Only. For presentation at and publication in Proceedings of SPIE Optical Science and Technology 48th Annual Meeting, San Diego, CA, August 3–8, 2003.
FAZELY, A.R.	Southern University	
GANEL, O.	University of Maryland	
ET AL.		
The Energy Spectra of Heavy Nuclei Measured by the ATIC Experiment—Abstract Only. For presentation at and publication in Proceedings of the 35th COSPAR Scientific Assembly, Paris, France, July 18–25, 2004.		
PARKINSON, D.A.	TD51	
BROWN, K.K.	TD51	
Test Planning Approach and Lessons—Final Paper. For presentation at the 52nd JANNAF Meeting/1st Liquid Propulsion Subcommittee Meeting, Las Vegas, NV, May 10–13, 2004.		
PATRICK, M.C.	ED12	
COOPER, A.E.	ED12	
POWERS, W.T.	ED12	
Support of Integrated Health Management (IHM) Through Automated Analyses of Flow-Field-Derived Spectrographic Data—Final Paper. For presentation at the JANNAF Interagency Propulsion Committee, Colorado Springs, CO, December 1–5, 2003.		
PECK, J.	ED21	
TORRES, I.	ED21	
A DMAP Program for the Selection of Accelerometer Locations in MSC/Nastran—Final Paper. For presentation at the 45th AIAA/ASME/ASCE/AHS/ASC Structures, Structural Dynamics, and Materials Conference, Palm Springs, CA, May 19–22, 2004.		
PERRIN, D.J.	SD50	
SIDMAN, E.D.	SD50	
MEEGAN, C.A.	SD50	
BRIGGS, M.S.	SD50	
CONNAUGHTON, V.	SD50	
GLAST Burst Monitor Trigger Classification Algorithm—Abstract Only. For presentation at and publication in Proceedings of the High Energy Astrophysics Division of the American Society, New Orleans, LA, September 8–11, 2004.		
PIKUTA, E.V.	SD50	
HOOVER, R.B.	SD50	
Astrobiological Significance of Chemolithoautotrophic Acidophiles—Abstract Only. For presentation at and publication in Proceedings of SPIE Optical Science and Technology 48th Annual Meeting, San Diego, CA, August 3–8, 2003.		
PIKUTA, E.V.	SD50	
HOOVER, R.B.	SD50	
Growth of the Facultative Anaerobes From Antarctica, Alaska, and Patagonia at Low Temperatures—Abstract Only. For presentation at and publication in Proceedings of SPIE Optical Science and Technology 49th Annual Meeting, Denver, CO, August 2–6, 2004.		
PIKUTA, E.V.	SD50	
HOOVER, R.B.	SD50	
Oxygen Effect on the Low Temperature Tolerance of Facultative Anaerobes From Antarctica, Alaska, and Patagonia—Abstract Only. For presentation at and publication in Proceedings of SPIE Optical Science and Technology 49th Annual Meeting, Denver, CO, August 2–6, 2004.		
PIKUTA, E.V.	SD50	
MARSIC, D.	UAH	
BEJ, A.	UAB	
TANG, J.	American Type Culture Collection	
KRADER, P.	American Type Culture Collection	
HOOVER, R.B.	SD50	
Carnobacterium Pleistocaenium sp. nov. a Novel Psychrotolerant, Facultative Anaerobe Isolated From Permafrost of the Fox Tunnel in Alaska—Abstract Only. For publication in the International Journal of Systematic and Evolutionary Microbiology, 2004.		
PIVOVAROFF, M.J.	SD50	
BARBER, W.C.	SD50	
CRAIG, W.W.	SD50	
HASAGAWA, B.H.	SD50	
RAMSEY, B.D.	SD50	
TAYLOR, C.	SD50	
Gamma-Ray Focusing Optics for Small Animal Imaging—Abstract Only. For presentation at the IEEE Rome 2004 Medical Imaging Conference, Rome, Italy, October 16–22, 2004.		
POLETTTO, G.	INAF	
SUESS, S.T.	SD50	
JD 7: The Sun and the Heliosphere as an Integrated System—Abstract Only. For publication in the Highlights of Astronomy, 2003.		
POLETTTO, G.	SD50	
SUESS, S.T.	SD50	

MSFC ABSTRACTS, ARTICLES, PAPERS, AND PRESENTATIONS CLEARED FOR DISSEMINATION
(Publicly available. Dates are conference dates.)

SUESS, S.T. SD50
BEMPORAD, A. SD50
SCHWADRON, N. SD50
ELLIOTT, H.A. SD50
ZURBUCHEN, T. SD50
KO, Y. SD50
Evidence for Hot Plasma After CME Events From
Remote and In Situ Observations—Abstract Only.
For publication in *The Astrophysical Journal*
Letters, 2004.
- POPP, C.G. TD52
ROBINSON, P.J. Aerojet
VEITH, E.M. Aerojet
Ignition Characterization Tests of the LOX/Ethanol Propel-
lant Combination—Abstract Only. For presentation at the
40th AIAA/ASME/SAE/ASEE Joint Propulsion Confer-
ence, Fort Lauderdale, FL, July 11–14, 2004.
- POTTER, R. SD46
HONG, Y.-S. SD46
CISZAK, E.M. SD46/UAH
Use of Plastic Capillaries for Macromolecular Crystal-
lization—Abstract Only. For publication in the *Journal of*
Applied Crystallography, 2003.
- PRESSON, K. FD24
TRICHILO, M. ALTEC
MPLM Active Mission Preparation: TCS Unique Testing
for Risk Mitigation—Final Paper. For presentation at the
34th International Conference on Environmental Systems,
Colorado Springs, CO, July 19–22, 2004.
- PRICE, M.W. Corning Inc.
SCRIPA, R.N. UAB
SZOFRAN, F.R. SD46
MOTAKEF, S. CAPE Simulations
HANSON, B. Corning Inc.
Analysis of Radial Segregation in Directionally Solidified
Hg_{0.89}Mn_{0.11}Te—Abstract Only. For publication in the
Journal of Crystal Growth, 2003.
- PUSEY, M.L. SD46
Growing Larger Crystals for Neutron Diffraction—Abstract
Only. For presentation at the 5th International Symposium
on Organized Research Combination System (ORCS),
Tokai, Ibaraki, Japan, November 19–21, 2003.
- PUSEY, M.L. SD48
LIU, Z.-J. University of Georgia

PRAISSMAN, J. University of Georgia
LIN, D. University of Georgia
WANG, B.-C. University of Georgia
GAVIRA, J.A. UAH
NG, J.D. UAH
Life in the Fast Lane for Protein Crystallization and
X-Ray Crystallography—Abstract Only. For publication in
the *Process in Biophysics and Molecular Biology*, 2004.
- QUATTROCHI, D.A. SD60
LUVALL, J.C. SD60
Estimating Spatially Distributed Surface Fluxes in a
Semi-Arid Great Basin Desert Using Landsat TM Thermal
Data—Abstract Only. For publication in *Thermal Remote*
Sensing in Land Surface Processes, 2004.
- QUINN, J.E. TD51
Outbrief—Long Life Rocket Engine Panel—Final Paper.
For presentation at the JANNAF Conference, Las Vegas,
NV, May 10–13, 2004.
- RAMACHANDRAN, N. BAE Systems/SD46
LESLIE, F.W. SD46
Magnetic Control of Solutal Buoyancy-Driven Convec-
tion. Part I: Theory and Experiments—Abstract Only. For
publication in the *International Journal of Heat and Mass*
Transfer, 2003.
- RAMACHANDRAN, N. BAE Systems/SD46
LESLIE, F.W. SD46
Magnetic Control of Convection During Protein Crystal-
lization—Abstract Only. For presentation at the Interna-
tional Conference on Crystal Growth, Grenoble, France,
August 9–13, 2004.
- RAMACHANDRAN, N. BAE Systems/SD46
LESLIE, F.W. SD46
Using Magnetic Fields to Control Convection Dur-
ing Protein Cystallization—Analysis and Validation
Studies—Abstract Only. For publication in the *Journal of*
Crystal Growth, 2004.
- RAMACHANDRAN, N. BAE Systems/SD46
RAY, C.S. SD46
ROGERS, J.R. SD46
Developing Glassy Magnets From Simulated Composition
of Martian Soil for Exploration Applications—Abstract Only.
For presentation at and publication in *Proceedings of the*
Material Research Society Materials for Space Applications,
Boston, MA, November 29–December 3, 2004.

LUO, Q. University of Alabama
CURTIS, S.S. University of Alabama
HOLLADAY, J.B. FD24
CLARK, D.W. FD24
New Hydrophilic, Composite Membranes for Air Removal
From Water Coolant Systems—Final Paper. For presenta-
tion at the 34th International Conference on Environmental
Systems, Colorado Springs, CO, July 19–22, 2004.
- ROBERTS, B.C. ED44
Range Commanders Council Meteorology Group 88th
Meeting—NASA Marshall Space Flight Center Task
Report—2004—Final Paper. For presentation at the Range
Commanders Council Meteorology Group 88th Meeting,
Silver Springs, MD, May 10–12, 2004.
- ROBERTS, B.C. ED44
KNUPP, K.R. UAH
Strong Updraft Feature Associated With Hurricane Earl
During Landfall—Final Paper. For presentation at the
26th Conference on Hurricanes and Tropical Meteorology,
Miami, FL, May 3–7, 2004.
- ROBERTSON, B. ED13
WILKERSON, D. ED13
Multi-Level Simulation of a Real Time Vibration Monitor-
ing System Component—Abstract Only. For presentation at
the 7th Mil/Aerospace Applications of Programmable Logic
Devices International Conference (MAPLD), Washington,
DC, September 8–10, 2004.
- ROBERTSON, F.R. SD60
LU, H.-L. USRA
How Consistent are Recent Variations in the Tropical
Energy and Water Cycle Resolved by Satellite Measure-
ments?—Abstract Only. For presentation at and publica-
tion in Proceedings of the IGWCO/GEWEX/UNESCO
Workshop on Trends in Global Water Cycle Variables, Paris,
France, November 3–5, 2004.
- ROBERTSON, F.R. SD60
LU, H.-L. SD60
How Well are Recent Climate Variability Signals Resolved
by Satellite Radiative Flux Estimates?—Abstract Only. For
presentation at and publication in Proceedings of the 13th
AMS Conference on Satellite Meteorology and Oceanog-
raphy, Norfolk, VA, September 20–23, 2004.
- ROBERTSON, F.R. SD60
ROADS, J. Scripps Institute

Solar Arrays for Direct-Drive Electric Propulsion: Arcing at High Voltages—Abstract Only. For publication in the Journal of Spacecraft and Rockets, 2004.
- SCHRAMM, F. CD30
The Need for Traceability—Presentation. For presentation at the AIAG 2004 Auto-ID Showcase Southfield, Detroit, MI, May 20, 2004.
- SEGRE, P.N. SD46
Origin of Stability in Sedimentation—Abstract Only. For presentation at the Division of Fluid Dynamics 56th Annual Meeting, East Rutherford, NJ, September 23–25, 2003.
- SEGRE, P.N. SD46
MCCLYMER, J.P. University of Maine
Fluctuations, Stratification and Stability in a Liquid Fluidized Bed at Low Reynolds Number—Abstract Only. For publication in the Journal of Physics: Condensed Matter, 2004.
- SEGRE, P.N. SD46
SNELL, E.H. SD46
ADAMEK, D.H. SD46
Marangoni Convection and Deviations From Maxwells' Evaporation Model—Abstract Only. For publication in Physical Review Letters, 2004.
- SEVER, T.L. SD60
SATURNO, W. SD60
IRWIN, D.E. SD60
Putting Us on the Map: Remote Sensing Investigation of the Ancient Maya Landscape—Abstract Only. For publication in Remote Sensing in Archaeology, 2004.
- SEXTON, J. XP01
X-37 and Our Future in Space: Breaking Barriers to Achieve New Milestones in Space Settlement—Presentation (CD). For presentation at the AIAA Reusable Launch Vehicle Program Committee Meeting, Reno, NV, January 7, 2004.
- SHAH, S.R. ED33
JERMAN, G. ED33
Wing Leading Edge Debris Analysis—Presentation. For presentation at the TMS 2004 Annual Meeting, Charlotte, NC, March 14–18, 2004.
- SHAH, S.R. ED33
JERMAN, G. ED33
COSTON, J. ED33
Unlocking the Mystery of *Columbia's* Tragic Accident Through Materials Characterization—Presentation. For presentation at the Mississippi State University Materials Working Group Seminar, Starksville, MS, October 15, 2003.
- SHEETS, P. University of Colorado
SEVER, T. SD60
Creating and Perpetuating Social Memory Across the Ancient Costa Rican Landscape—Abstract Only. For publication in Remote Sensing in Archaeology, 2004.
- SIBILLE, L. BAE Systems/SD46
GAVIRA-GALLARDO, J.A. SD46
HOURLIER-BAHLOUL, D. SD46
Synthesis of Sol-Gel Precursors for Ceramics From Lunar and Martian Soil Simulans—Abstract Only. For presentation at the 55th Pacific Coast Regional and Basic Science Division Fall Meeting, Oakland, CA, October 19–22, 2003.
- SIMS, W.H. TD40
High Efficiency Microwave Power Amplifier (HEMPA) Design—Final Paper. For presentation at the International IPSI-2004, Pescara, Italy, July 28–August 2, 2004.

MSFC ABSTRACTS, ARTICLES, PAPERS, AND PRESENTATIONS CLEARED FOR DISSEMINATION
(Publicly available. Dates are conference dates.)

SIMS, W.H.	TD40	Oklahoma State University, Stillwater, OK, April 8, 2004,
PEARSON, J.B.	TD40	and publication in the Journal of Modern Optics, 2004.
Radio Frequency (RF) Trap for Confinement of Antimatter Plasmas Using Rotating Wall Electric Fields—Final Paper. For presentation at the 6th NASA/DOD Conference on Evolvable Hardware, Seattle, WA, June 24–26, 2004.		
SINGH, N.	UAH	
KHAZANOV, G.V.	SD50	
Numerical Simulation of Waves Driven by Plasma Currents Generated by Low-Frequency Alfvén Waves in a Multi-Ion Plasma—Abstract Only. For publication in the Journal of Geophysical Research, 2003.		
SINGH, N.	UAH	
SAHA, S.	SD50	
CRAVEN, P.D.	SD50	
GALLAGHER, D.L.	SD50	
JONES, J.	SD50	
Magnetized Plasma Expansion and its Interaction With a Plasma Stream—Abstract Only. For publication in the Journal of Geophysical Research, 2003.		
SINGHAL, S.N.	ED30	
Overview of Future of Probabilistic Methods and RMSL Technology and the Probabilistic Methods Education Initiative for the U.S. Army at the SAE G-11 Meeting, Picatinny Arsenal—Abstract Only. For presentation at the SAE G-11 RMSL (Reliability, Maintainability, Supportability and Logistics) Division Meeting, Picatinny Arsenal, NJ, March 1–3, 2004.		
SKELLEY, S.E.	TD63	
Inducer Hydrodynamic Forces in a Cavitating Environment—Final Paper. For presentation at the 2004 ASME Heat Transfer/Fluids Engineering Summer Conference, Charlotte, NC, July 11–15, 2004.		
SMITH, D.D.	SD46	
Coherent Effects in Tiny Optics: Tunneling Through the Looking Glass—Abstract Only. For presentation at the Jet Propulsion Laboratory, Pasadena, CA, September 30, 2003.		
SMITH, D.D.	SD46	
Coherence Effects in Coupled Optical Resonators—Abstract Only. For presentation at the 34th Winter Colloquium on the Physics of Quantum Electronics, Snowbird, UT, January 4–8, 2004.		
SMITH, D.D.	SD46	
Coherence Phenomena in Coupled Optical Resonators—Abstract Only. For presentation at the Invited Talk to		
SMITH, D.D.	SD46	
Induced Transparency and Absorption in Coupled Microresonators—Final Paper. For presentation at the Institute of Electrical and Electronics Engineers—Lasers and Electro-Optics (IEEE-LEOS) Society Meeting, San Diego, CA, June 28–30, 2004.		
SMITH, D.D.	SD46	
CHANG, H.	UAH	
FULLER, K.A.	UAH	
Photon Dynamics in Coherently Coupled Optical Resonators—Abstract Only. For presentation at the Optical Society of America Frontiers in Optics Conference, (OSA), Rochester, NY, October 10–14, 2004.		
SMITHERMAN, JR., D.V.	FD02	
Technology Development and Demonstration Concepts for the Space Elevator—Abstract Only. For presentation at the 55th International Astronautical Congress, Vancouver, British Columbia, Canada, October 4–8, 2004.

MSFC ABSTRACTS, ARTICLES, PAPERS, AND PRESENTATIONS CLEARED FOR DISSEMINATION
(Publicly available. Dates are conference dates.)

SWIFT, W.R.	ED44	SSMO Multidisciplinary Analysis and Optimization Conference, Albany, NY, August 30–September 1, 2004.
SUGGS, R.M.	ED44	
COOKE, W.J.	Morgan Research Corporation/ED44	
Meteor Video Meteor Photometry—Abstract Only. For presentation at the Meteoroids 2004 Conference, London, Ontario, Canada, August 16–20, 2004.		
SWINGLE, M.R.	University of South Alabama	TINKER, M.L. ED20
CISZAK, E.M.	UAH/SD46	STEINCAMP, J.W. ED20
HONKANEN, E.	University of South Alabama	STEWART, E.T. ED20
Structural Basis for the Catalytic Activity of Human Serine/Threonine Protein Phosphatase Type 5 (PP5)—Abstract Only. For publication in Science, 2004, and in the Journal of Biological Chemistry, 2004.		PATTON, B.W. ED20
		PANNELL, W.P. ED20
		NEWBY, R.L. ED20
		COFFMAN, M.E. ED20
		QUALLS, A.L. Oak Ridge National Laboratory
		BANCROFT, S. Arnold Engineering
		MOLVIK, G. Arnold Engineering
		Nuclear Electric Vehicle Optimization Toolset (NEVOT): Integrated System Design Using Genetic Algorithms—Final Paper. For presentation at the Space Technology and Applications International Forum (STAIF 2004), Albuquerque, NM, February 8–12, 2004.
TATARA, J.D.	Qualis Corporation	
PERRY, J.L.	FD21	TUCKER, D.S. SD71
Spacecraft Cabin Atmospheric Major Constituent Monitoring Using Off-the-Shelf Techniques—Final Paper. For presentation at the 34th International Conference on Environmental Systems, Colorado Springs, CO, July 19–22, 2004.		ETHRIDGE, E.C. SD71
		SMITH, G.A. UAH
		Low Gravity Rapid Thermal Analysis of Glass—Abstract Only. For presentation at the XX International Congress on Glass, Kyoto International Conference Hall, Kyoto, Japan, September 26–October 1, 2004.
TAYLOR, J.	Austin Peay State University	
RAKOCZY, J.	SD71	TUCKER, D.S. SD71
STEINCAMP, J.	SD71	SMITH, G.A. UAH
Genetic Algorithm Phase Retrieval for the Systematic Image-Based Optical Alignment Testbed—Abstract Only. For publication in the Astronomical Society of the Pacific, 2004.		The Effects of Gravity on the Crystallization Behavior of Heavy Metal Fluoride Glasses—Abstract Only. For publication in the Progress in Materials Science (Book Chapter), 2004.
TAYLOR, T.L.	XP01	
X-37 Flight Demonstrator—Approach & Landing Test Vehicle Flight Test Approach—Presentation. For presentation at the Space Technology and Information International Technology Forum (STAIF), Albuquerque, NM, February 11, 2004.		TUCKER, K. TD64
		WEST, J. TD64
		WILLIAMS, R. TD64
		LIN, J. TD64
THORNTON, G.	SD70	ROCKER, M. TD64
The Use of Solid Edge as an Engineering Tool to Support NASA Projects—Abstract Only. For presentation at the Solid Edge User Summit, Orlando, FL, June 2–4, 2004.		CANABAL, F. TD64
		ROBLES, B. TD64
		GARCIA, R. TD64
		CHENOWETH, J. CRAFT Tech
TINKER, M.L.	ED20	Using CFD as a Rocket Injector Design Tool: Recent Progress at Marshall Space Flight Center—Final Paper. For presentation at the 5th International Symposium on Liquid Space Propulsion Long Life Combustion Devices Technology, Chattanooga, TN, October 27–30, 2003.
STEINCAMP, J.W.	ED20	
STEWART, E.T.	ED20	
PATTON, B.W.	ED20	
PANNELL, W.P.	ED20	
NEWBY, R.L.	ED20	
COFFMAN, M.E.	ED20	TURNER, M.B. University of Alabama/SD46
KOS, L.D.	ED20	HOLBREY, J.D. University of Alabama
Nuclear Electric Vehicle Optimization Toolset (NEVOT)—Final Paper. For presentation at the AIAA/		SPEAR, S.K. University of Alabama
		PUSEY, M.L. SD46
		ROGERS, R.D. University of Alabama/SD46

MSFC ABSTRACTS, ARTICLES, PAPERS, AND PRESENTATIONS CLEARED FOR DISSEMINATION
(Publicly available. Dates are conference dates.)

- Effect of Oxygen-Containing Functional Groups on Protein Stability in Ionic Liquid Solutions—Abstract Only. For publication in the American Chemical Society Symposium Series Book, 2004.
- TURNER, S. XP01
X-37 Project Lessons Learned: Maximizing Knowledge to Improve Space Transportation System Development—Presentation. For presentation at the NASA Academy of Program and Project Leadership, Baltimore, MD, August 9–11, 2004.
- TURPIN, J.B. TD53
Variable Step Integration Coupled With the Method of Characteristics Solution for Water-Hammer Analysis, A Case Study—Final Paper. For presentation at the 52nd JANNAF Meeting/1st Liquid Propulsion Subcommittee Meeting, Las Vegas, NV, May 10–13, 2004.
- VALENTINE, P.G. ED34
MEYER, D. ED34
SNOW, H. ED34
Hot Structure Control Surface Progress for X-37 Technology Development Program—Abstract Only. For publication in Aerospace America, 2004.
- VAN DER WOERD, M.J. SD46
DNA in a Tunnel: A Comfy Spot for Recognition—or The Structure of BsoBI complexed With DNA—What Can We Learn About Function Via Structure Determination and How Can This Be Applied to Bone or Muscle Biology?—Abstract Only. For presentation at an Invited Talk at Johnson Space Center, Houston, TX, March 26, 2004.
- VAN DYKE, M.K. TD40
Early Flight Fission Test Facilities (EFF-TF) to Support Near-Term Space Fission Systems—Final Paper. For presentation at the STAIF 2004 Conference, Albuquerque, NM, February 8–12, 2004.
- VAN DYKE, M.K. TD40
MARTIN, J.J. TD40
Non Nuclear Testing of Reactor Systems in the Early-Flight Fission Test Facilities (EFF-TF)—Final Paper. For presentation at the 2004 International Congress on Advances in Nuclear Power Plants (ICAPP 2004), Pittsburgh, PA, June 13–17, 2004.
- VAN PELT, M. ESA-ESTEC
HUNT, C.D. TD31
Comparing NASA and ESA Cost Estimating Methods for Human Mission to Mars—Abstract and Final Paper. For presentation at The International Society of Parametric Analysts 26th International Conference, Frascati, Italy, May 10–12, 2004.
- VAUGHAN, W.W. UAH
ANDERSON, B.J. ED44
Aerospace Meteorology Lessons Learned Relative to Aerospace Vehicle Design and Operations—Final Paper. For presentation at the 11th AMS Conference on Aviation, Range, and Aerospace Meteorology, Hyannis, MA, October 4–8, 2004.
- VAUGHN, J.A. ED31
CURTIS, L. ED31
GILCHRIST, B.E. University of Michigan
BILEN, S. Pennsylvania State University
LORENZINI, E. Smithsonian Astrophysics
Review of the ProSEDS Electrodynamic Tether Mission Development—Abstract Only. For presentation at the 40th AIAA/ASME/SAE/ASEE Joint Propulsion Conference, Fort Lauderdale, FL, July 11–14, 2004.
- VAUGHN, J.A. ED31
SCHNEIDER, T.A. ED31
POLK, J. Jet Propulsion Laboratory
GOEBEL, D. Jet Propulsion Laboratory
OHLINGER, W. Consultant
HILL, D.N. Georgia Institute of Technology
NEXIS Reservoir Cathode 2000 Hour Life Test—Abstract Only. For presentation at the 40th AIAA/ASME/SAE/ASEE Joint Propulsion Conference, Fort Lauderdale, FL, July 11–14, 2004.
- VINE, F.J. Accurate Automation
MANKOWSKI, J.J. Accurate Automation
SAEKS, R.E. Accurate Automation
CHOW, A.S. TD40
Plasma Shock Wave Modification Experiments in a Temperature Compensated Shock Tube—Final Paper. For presentation at the JANNAF Conference, Colorado Springs, CO, December 1–5, 2003.
- VOLZ, M.P. SD46
Semiconductor Crystal Growth in Static and Rotating Magnetic Fields—Abstract Only. For publication in Proceedings of the International Workshop on Materials Analysis & Processing in Magnetic Fields, Tallahassee, FL, March 7–10, 2004, and for presentation at The International Workshop on Materials Analysis and Processing in Magnetic Fields, Tallahassee, FL, March 17–19, 2004.
- VOLZ, M.P. SD46
WALKER, J.S. University of Illinois
SCHWEIZER, M. USRA/SD46/Schott Glas
COBB, S.D. SD46

MSFC ABSTRACTS, ARTICLES, PAPERS, AND PRESENTATIONS CLEARED FOR DISSEMINATION
